The lot comes with his Observer's and Air Gunner's Flying Log Book, 14 assorted sized photographs, 5 newspaper cuttings and a caricature of him by Wren which featured in "The Marker" in September 1951.

Flight Lieutenant Stanley Turner was from Harthill, and was educated at Harthill Woodhall Senior School, he enlisted in 1939, and qualified as an Air Gunner on the 27th July 1940. His first entry in his Logbook is on the 14th July 1940 flying on Battles at R.A.F. Station Turby on the Isle of Man. He transfers to 17 OTUU at Upwood and flies on Ansons and Blenheims. He then transfers to Linton-on-Ouse with "B" flight and begins operations as Tail Gunner with his first on the 7th October 1940 to Amsterdam, on the 10th he bombed Cologne it additionally notes engine cut-out. On the 14th he is on a raid to Stettin (landed at Marham). On the 23rd a raid was planned for Stettin but it notes that the target was not found so Bruhrthal was bombed instead. On November 7th his logbook just notes "Raid", whilst on the 26th the target was Turin (bombed arsenal) where he notes "Baled out". His last raid for 1940 took place on the 11th December and again no target is noted.

He moves to 35 Squadron still at Linton-on-Ouse and still as Air Gunner, this time on Halifaxes. He has two Ops for March one on the 10th which is not noted although it notes "Jettisoned Bombs", two days later he is on Ops to Hamburg. Serving in the Queen's Own Cameron Highlanders he was sergeant in charge of the gas squad with what is described as "very primitive" equipment in use. The gas was released but the wind changed, blowing the gas back on the British troops. At great risk to himself he remained behind after the troops had withdrawn so as to cut off the gas. This was a lengthy operation and during it he was severely gassed. For this action he was awarded the M.M. and his commanding officer gained the Military Cross. Lieutenant 31.3.1791; Captain 1.7.1795; Major 25.6.1801; Lieutenant Colonel 17.10.1805; Colonel 4.6.1813; Major-General 12.8.1819; Lieutenant General 10.1.1837; Colonel of the 78th Highlanders 9.2.1837.

Major General Anderson was appointed Ensign in the 51st Foot on the 31st March 1788 and to Lieutenant on the 31st March 1791. In 1792 he went to Gibraltar and after staying there for two years he embarked for Toulon. He then went to Corsica, and was present at the storming of Convention redoubts, Mozelle Fort, and the siege of Calvi. On the 1st of July 1795 he was promoted to a company in the 4th West India Regiment. He was appointed Brigade Major to Sir J. Moore in the West Indies, and employed in the storming of Morne Chapot in St. Lucia, where he received a severe contusion in the side. He also was at the taking of Morne Fortunee, in repulsing the enemy's sortie, and in the final reduction of that place. He was employed during the whole of the brigand war in that island under Sir J. Moore. He served in Ireland during the rebellion, and was present at the battle of Foukes Hill and the retaking of Wexford. He was appointed Aide-de-Camp to Sir J. Moore in the expedition to Holland, and was present at the first landing, and in the battles of the 10th of September and 2nd October. He also served as Aide-de-Camp to Sir J. Moore on the expedition to Egypt, and was present at the first landing, and in the battles of the 13th and 21st March. In the latter he received a shot in his right arm, which deprived him of full use of it, and obliged him to return home. On the 25th May 1796, he was removed from the 4th West India Regiment to a company in the 31st Foot; on the 25th June 1801 he was promoted to a Majority in the 9th Foot, and on the 17th October 1805 obtained a Lieutenant-Colonelcy in the Nova Scotia Fencibles, from which he was removed to the 60th Foot on the 14th January 1808. He accompanied Sir J. Moore to Sicily in 1806 as Assistant Adjutant-General; and was appointed Deputy Adjutant-General to the army destined for Sweden; Assistant Adjutant-General to Sir J. Moore's division in Portugal; and Deputy Adjutant-General on Sir J. Moore being appointed Commander-in-Chief; and Commandant at head-quarters, in which situation he remained till the battle of Corunna. He next served as Assistant Adjutant-General to General Graham's division

in the expedition to Walcheren, and was at the siege of Flushing. He served at Malta as Deputy Adjutant-General. He received the brevet of Colonel on the 4th June 1813, and Major-General on the 12th August 1819. He then went on half-pay on the 60th Foot.

He was for twenty one years the friend and companion in arms of Sir John Moore, on the morning after the death of the General, he wrote the following account:

"I met the General, in the evening of the 16th, bringing in a blanket and sashes. He knew me immediately, though it was almost dark, squeezed me by the hand, and said, 'Anderson, don't leave me.' He spoke to the surgeons on their examining his wound, but was in such pain he could say little. After some time, he seemed very anxious to speak to me, and at intervals got out as follows: 'Anderson, you know that I have always wished to die this way.' He then asked, 'Are the French beaten?' which he repeated to every one he knew, as they came in. 'I hope the people of England will be satisfied!- I hope my country will do me justice!-Anderson, you will see my friends as soon as you can; tell them -every thing. -Say to my mother'- here his voice quite failed, and he was excessively agitated.- 'Hope-Hope-I have much to say to him, but cannot get it out. Are Colonel Graham and all my Aides-de-Camp well?' (A private sign was made by Colonel Anderson not to inform him that Captain Burrard, one of his Aides-de-Camp, was wounded in the action.) 'I have made my will, and have remembered my servants. Colborne has my will- and all my papers.' Major Colborne then came into the room. He spoke most kindly to him, and then said to me. 'Anderson, remember you go to - and tell him it is my request, and that I expect he will give Major Colborne a Lieutenant-Colonelcy. He has been long with me, and I know him most worthy of it.' He then asked Major Colborne, 'if the French were beaten?' and, on being told they were, on every point, he said, 'It's a great satisfaction for me to know we have beaten the French, Is Paget in the room?' On my telling him, no; he said, 'Remember me to him. It's General Paget I mean; he is a fine fellow. I feel myself so strong, I fear I shall be long dying.- It is great uneasiness- it is great pain.- Every thing Francois says is right; I have the greatest confidence in him.' He thanked the surgeons for their trouble. Captains Percy and Stanhope, two of his Aides-de-Camp, then came into the room. He spoke kindly to both, and asked Percy 'if all his Aides-de-Camp were well?' After some interval he said, 'Stanhope, remember me to your sister.' He pressed my hand close to his body, and in a few minutes died without a struggle. This was every syllable he uttered, as far as I can recollect, except asking occasionally to be placed in an easier posture.

(Signed) "P. Anderson, Lieutenant-Colonel."

Lieutenant General Anderson died on the 12th December 1851.

A Lieutenant Henry Anderson was promoted to Lieutenant in June 1792, he appears in the Navy List of August 1800 but not later.

## THE SIR J.Q.HOLLOM ARCHIVE OF BANKNOTES

Sir Jasper Hollom started work at the Bank of England in 1936. In 1956 he was appointed Deputy Chief Cashier and on 1st March 1962 he took over as Chief Cashier. After stepping down from his position in 1966 he was appointed to the Court of Directors and from 1970-80 he served as Deputy Governor. The custom at the bank has been that senior staff receive early examples of notes when a series is issued. The following 12 notes were presented to him between 1961-81 and include two No.00001 Notes.

## **CAPTAIN ERIC MELROSE BROWN CBE DSC AFC RN 1919-2016**

Winkle Brown was a legend who set and kept aviation world records. He was without parallel as a handing test pilot. He wrote the test flying rule book before anyone knew that a rule book was needed.

With three Guinness World Records and a host of other firsts, Eric Melrose Brown – better known as Winkle to the Fleet Air Arm – can justly be called the Greatest British Aviator and one of the top test pilots in the world. During his 30 years of naval and test flying, he flew more aircraft than any other person (487), carried out more carrier deck landings (2407) and catapult launches (2721). His record includes flying 55 types of German piston-engined, jet-powered and rocket-powered aircraft and some of the world's initial helicopter tests. He will be remembered for his records, his personal charm, modesty and above all skill.

In his log books, his feats are faithfully recorded in his neat, steady hand; they don't tell of the drama of being sunk by a U-Boat and make only passing reference to 20 other near-death experiences. He combined all this with a family life and postings to impart his knowledge to American astronauts, a new breed of German naval pilots and formulating the rules for offshore civilian helicopters. Cheerful to the last, Eric Brown was unique. There will never be another like him.

Paul Beaver.

### **C.B.E. LONDON GAZETTE 1.1.1970.**

### **O.B.E. LONDON GAZETTE 19.2.1946.**

For courage, exceptional skill and devotion to duty in carrying out the first deck-landings of Mosquito and Vampire. In doing so he has been the first pilot ever to land on the deck of a carrier, a twin-engined aircraft (Mosquito) and a pure jet-propelled aircraft (Vampire). The success of these great strides in Naval Aviation has been largely due to his exceptional flying skill.

Remarks of C in C etc: Strongly recommended for a decoration. The unknown elements of the first deck landings of a type of aircraft are many. The judgement of distance and the behaviour of the aircraft cannot be fully reproduced on land. In the event the first landings of the Vampire was only just not a disaster as the aircraft landed on the after round down. Subsequent landings were entirely normal. I consider that the pilot runs considerable risk and could only carry out this type of work by a superb confidence in his skill, a confidence which is shared by all who have seen him fly.

### **D.S.C. LONDON GAZETTE 10.3.1942.**

For determined and successful action against enemy aircraft whereby on 8th November 1941 he shot down single-handed a Focke Wulf, and on 19th December, had a large share in shooting down a second Focke Wulf. On the latter occasion, when there were no serviceable aircraft available, this Officer voluntarily took up a machine which was unserviceable owing to a bent propeller. During the whole period of operations with convoys this Officer continuously showed a highly offensive spirit which included attacking U-boats by gunfire on two occasions.

### **A.F.C. LONDON GAZETTE 12.6.1947.**

For experimental flying with the R.A.F.

### **M.B.E. LONDON GAZETTE 2.5.1944.**

Lieutenant Brown was the officer chosen as pilot in the recent deck landing and take-off trials of the Mosquito aircraft. This is the first time in our history that a twin-engined aircraft has been landed on and taken off on the deck of an aircraft carrier, and these difficult and hazardous trials with a very high performance modern aircraft have proved extremely satisfactory and have provided invaluable knowledge. Lieutenant Brown, who had previously flown the Mosquito for 30 hours in training, carried out a series of landings and take offs with great skill. The take-off required special skill and concentration in handling the aircraft, which tended to swing to port, and required differential treatment of the throttles to keep it on the deck until airborne. Deck landing the Mosquito also required especial skill in that the signals of the D.C.L.O. when standing in the normal position were obscured from the pilot's sight by the port airscrew at the crucial moment. This involved the D.L.C.O. remaining in the direct path of the aircraft until the "cut" had been given. The co-ordination between the D.L.C.O. and pilot was of the highest order, and together with the great skill of the pilot largely contributed to the success of the trials.

### **KING'S COMMENDATION 1.1.1949.**

He was originally recommended for a bar to his Air Force Cross, this was downgraded to the King's Commendation for Valuable Service in the Air. The recommendation is as follows:

Lieutenant Commander Brown has done considerable flying during the last seven months terminating in approximately twenty-eight flights involving the arresting of his aircraft in full flight. The technique

being developed had never before been attempted and consequently, although protection against every danger that could be anticipated had been provided, there still remained the possibilities of unforeseen hazards. Lieutenant Commander Brown carried out the flights not only with courage and determination of the highest order but also with magnificent fortitude and presence of mind without which he could not have rendered the clear, accurate and detailed reports so vital to the success of the experiment. Without doubt he is worthy of the award of a bar to his A.F.C.

Remarks by Director, Royal Aircraft Establishment:

Lt. Comdr. Brown has served at the Establishment for a number of years. His work has already been recognised by the award of an O.B.E. and an A.F.C., but despite these awards his recent work initiating the flying in connection with the carpet landing scheme has been so praiseworthy as to justify recognition. The work has involved new and advanced approach techniques requiring the aircraft to enter an arresting wire in flight at speeds greatly in excess of any yet accomplished in service or other exceptional work. It has called for considerable skill and accuracy of flying near the ground. Throughout the work, Lt. Comdr. Brown has shown courage and resource, and, in spite of an early setback, extreme confidence and enthusiasm.

The lot includes a detailed archive as follows: His complete run of original Log Books comprising a total of ten Royal Air Force and Royal Navy official issues, with a further civilian Log Book. Together with his personal record book which to the front covers Aircraft Handling Characteristics with a grading system from Excellent + to Poor, this follows on with the full listing of all the aircraft he had flown during his lifetime. The original Warrants for his M.B.E., O.B.E., C.B.E the last in envelope of issue. A receipt for the return of his O.B.E. Caterpillar club badge, engraved (Lt Cdr EM Brown MBE DSO (sic)). Royal Aeronautical Society Medal engraved (Awarded 1949 to Lt.Cdr (A) E.M.Brown. R.N., AR.AeS. For His Outstanding Achievements In Deck Landing.). Federation Aeronautique Internationale medal engraved (Capitaine Eric M.Brown (Grande Bretagne) 1986), in case of issue. The Sir Peter Masefield Medal (Captain Eric Brown CBE DFC AFC MA RN 21 March 1997), in case of issue. An Air League Founders' Medal in gold, the reverse engraved (For outstanding service To British Aviation Captain Eric Brown CBE DSC AFC RN 2015), in case of issue. A Cartier cigarette box with EIRR cypher in box of issue. A framed photograph of him and his achievements as displayed on USS Yorktown. A letter from the Air League Trust confirming his award of the Founder's Medal for 2015. A framed Certificate from the Guinness Book of Records for his record of 487 different types of aircraft, signed by Peter Matthews and Norris McWhirter. A framed certificate for his Freedom of the City of London dated 13th May 1975. A framed photograph of the Sea Vampire taking off from H.M.S. Ocean. A framed photograph of the Sea Vampire Landing on H.M.S. Ocean Dec 1945 (an RAE photograph) signed by him. A framed photograph of the Vampire Flexible Deck Landing on H.M.S. Warrior 17.2.1949 (an RAE photograph). A framed photograph of him flying a Vampire next to HMS Ocean, this with brass plaque (Presented by the H.M.S. Ocean Association on the 15th October 1994 to Captain Eric Brown CBE, DSC, AFC, RN).

Captain Eric Melrose Brown, is perhaps regarded as the greatest pilot of living memory and also the greatest naval aviator of all time, completing 2,407 deck-landings and piloting 487 different aircraft.

He was born in Edinburgh on the 21st January 1919. His father had been a Balloon Observer in the First World War and was posted to flying training which he completed just before the end of the war.

Brown had won a scholarship from his local primary school to the Royal High School in Edinburgh. He was runner up to Dux of School but was also in the rugby 1st XV, played International Youth Rugby for Scotland and was also school champion in gymnastics.

In 1936 Brown's father took him to the Olympics in Berlin. His father being a former RFC pilot was invited to welcoming events by former First World War German pilots who were now serving in the newly formed Luftwaffe. During his stay in Germany he met Ernst Udet the highest scoring ace after Baron Von Richtofen. Udet was Colonel of the Technical Department of the German Air Ministry. He also met Hanna Reitsch who was giving a sailplane demonstration at a venue close to the Olympic stadium.

Udet decided to take Eric flying in a two-seat Bucker Jungmann from Halle airfield, the pilot put the aeroplane through a host of aerobatics and on the final approach to land flipped the aircraft on its back, and then proceeded to turn it upright with 50ft to spare and then carried out a faultless landing. Brown was speechless but Udet roaring with laughter slapped him between the shoulder blades yelled 'Hals Und Beinbruch', the German fighter pilots' greeting. This convinced Brown to achieve the goal of being a top pilot.

After he completed High School he went up to Edinburgh University in 1937 to read for an honours degree in modern languages, with German as the main subject. He also joined the R.A.F.V.R. University Air Unit flying out of R.A.F. Turnhouse, under the auspices of 603 Squadron Auxiliary Air Force.

The Foreign Office approached modern language students to see if they were interested in a career in the Diplomatic Corps, and he expressed an interest. Such students were to be sent abroad in the penultimate year of their four-year degree course as exchange student teachers for six months in Germany and a further six in France. He was allocated Schloss Salem internat (boarding school) on Lake Constance and the Lycee at Metz in Northern France.

In 1938 he visited Berlin again and met up with Udet who was now a Major General and they watched Hanna Reitsch carry out a helicopter flying demonstration. In the summer of 1939 while at Salem he liked to tour the countryside and one of his favourite places to visit was Munich where he stayed in a small inn. On the morning of the 3rd September he was awoken by two SD men and their female interpreter, declaring that their countries were at war he was taken to the SD barracks. He was interrogated for three days despite them knowing everything about him. Eventually he was driven to the Swiss Frontier and was told he was free to go. He was allowed to take his MG sports car as the Germans had no spare parts for it. He drove through France for the Channel ports.

On returning to the UK he reported back to the RAFVR who were in no hurry for his services, but was told that the Fleet Air Arm had a desperate need for pilots. He went to the multi-services recruiting centre in Edinburgh, filled in some forms and waited in a long queue. After some basic training he went to Belfast flying Miles Magisters, he came out of the course with good grades but was also top of the ground school.

By June 1940 he was sent to Netheravon for advanced training as the campaign in Norway was draining away air crews. Following a short spell at Greenwich he joined the new naval fighter training station at Yeovilton in Somerset on the day it opened. It was basically three runways in an ocean of mud. He had his first prang when he hit an uncleared pile of rubble and had to carry out a belly landing with a bent undercarriage.

With the Battle of Britain in full swing the Gloster Gladiators they were training on went up fully armed in case they stumbled across any Germans. He witnessed two Heinkel III's blow up in front of him and another aircraft, when one was hit by ack-ack in the bomb bay, the debris ripped through the Gladiators just as he was about to press his gun button.

Upon graduation he was sent to 802 Squadron at Donibristle in Fife. He was immediately loaned to 810 Squadron and he carried out a raid in a Skua dive bomber on oil tanks in Norway. He returned to 802 Squadron who were issued Martlet (American Wildcats). He survived another scrape when Sir Winston Churchill visited, as part of the display he took off and was to do a roll on take-off, there was a huge bang and flash and the airscrew stopped dead, he pushed the stick hard forward and the plane flopped on its back and landed into the sea. He broke his nose on the gunsight and had a nasty crack on the arm but was able to swim clear.

His first ship posting was to the Empire Audacity later to be named H.M.S. Audacity a converted German merchantman which had been captured off St.Domingo in February 1940. She could carry six Martlets but had about 300ft of deck for take-off, but had only two arrester wires instead of the usual six. His first landing, one of the many he would eventually do in his career was a success.

In September 1941 he heads to Gibraltar taking badly needed ammunition to be sent on to Malta and the 8th Army. He encountered several U Boat scares and aircraft encounters but convoy OG 74 eventually made it to Gibraltar.

On the 2nd October the Audacity joins convoy HG 74, on one sortie his aeroplane was hit and his side windscreen shattered and he had a searing pain in the mouth along with the taste of blood. He landed violently smashing into the gunsight and passed out. This action resulted in him not flying on this convoy which reached the Clyde on the 17th October.

Out again on the 29th for Gibraltar, he was able to attack a Kurier before reaching Gibraltar. On his return trip his convoy was involved in numerous U Boat encounters, he shoots down another Kurier on the 19th November. On the 21st the Audacity was hit by a torpedo, Brown abandoned the ship after it was hit at least two more times, he was wearing his flying jacket and boots and carried his log book and a pair of silk pyjamas for his fiancée. He ended up kicking off his boots and as the log book was restricting his movements had to let that go. He was in the water for over three hours but was lucky to survive as the majority had not.

He got married on his return to the UK but by now his first and second choices for best man were both dead.

Having had a month's survivor's leave, he along with five of the seven Audacity pilots re-formed 802 Squadron flying Hurricanes out of Yeovilton. He was sent by the Admiralty to the RAE in Farnborough to fly the Miles M.20 fighter assessing its possibility as a naval combat aircraft. In March he was awarded the Distinguished Service Cross for his work aboard Audacity.

In May of 1942 Audacity's Captain Commander MacKendrick had told the Admiralty that he had a natural flair for deck landing which should be exploited and consequently he was posted to 768 Deck Landing Training Squadron at Arbroath to carry out his first attempt at getting a Hurricane aboard an escort carrier.

With his career covered so far the next section of this catalogue description covers his entries in his log books, given that his first log book was lost at sea, the story continues primarily from log book two. The first log book covers a wide spectrum of dates and perhaps can be regarded as an overview of his flying career but contains certain flights and information which were too secret for his standard log books.

## LOG BOOK 1

This first Log Book is titled as Lynn's Early Flying Experience covering several entries in a Fulmar, Dominie, Hoverfly and Rapide in July and August 1945 and March and April 1946.

This then leads on to "Ad Hoc Flying plus Flying Experience in Edinburgh University Air Squadron covering the period October 1938-December 1941.

I made my first experimental test flight on 5 January 1942 after being recalled from survivor's leave by Admiralty telegram to report to the Royal Aircraft Establishment Farnborough to fly the Miles M.20 to assess its suitability as a possible fleet fighter. The aircraft DR616 (Merlin XX) was flown for 1.20. Ad hoc flights. Ad hoc flights cover flights on aircraft not on own units' charge and therefore authorised by another agency (e.g. manufacturer's invitation), flights from own base not logged in Air Traffic Log for security purposes (e.g. some early jet flights), and special assignments.

The first entry starts on 28th March 1942 with him flying a P-40E Kittyhawk "Dog Fight with Hurricane at Yeovilton before delivery to Odiham". He flies a Seamew on the 22nd May with "Familiarisation at Arbroath". For the remainder of 1942 he flies a Grasshopper a C.42 Freccia which he notes as "An outstanding biplane", an Electra and in October he twice flies a HE.115 A-2 with a combination of Dual Instruction, Familiarisation and Water Landing.

The logbook continues into 1943 where he has flight in April on a Flamingo, then several flights in December aboard a Traveller, D.H.86B and a Percival Q6.

Moving onto January 1944 he is flown out on the 6th to Italy on an enemy aircraft assessment from Prestwick on a Lancaster. On the 7th January he flies a Cant Z1007B at Monfalcone. Later the same day he flies a Savoia-Marchetti at Palagonia. On the 8th he flies a Fiat G.SO Falcho at Foggia, and later that day a Caproni 311. The following day a Macchi C202 at Brindisi which he notes as "Very Impressive". He then flies back to Boscombe Down in the UK and through February and March has small amounts of flying on types to include Stirling IV, Manchester, Mohawk, Bombay, Martinet and Skymaster.

On 9th April 1944 he flies a Botha and carries out single-engine handling "Terrible", and on the 23rd flies in a Waco glider at Abingdon "Towed to 8,000ft by Dakota". On the 29th May he has his first flight in a Gloster E.28/39, this lasts for 40 minutes and he notes "My first jet propulsion flight".

He flies the same aircraft (W4041/G) on the 25th August carrying out Fuel Flow Tests and carries out a Flame-out landing at Odiham. On the 26th he performs Relighting at 10,000, 20,000 and 25,000ft.

On the 20th September he along with Squadron Leader Martindale flew a He.177A-5/R6 "Acted as co-pilot, flight engineer and interpreter for Marty; we then exchanged roles halfway through flight".

He has his final flight in the Gloster on the 6th December performing Dives from 35,000ft reaching a speed of Mach 0.82. He then returns to Italy and on the 20th at Reggio Emilia flies an RE-2000 and an RE-2001 the latter he notes as "Impressive". The following day he flies a Macchi C.205 at Agnone noting it as an "Outstanding fighter".

On the 4th March 1945 he has his first flight in a Sikorsky R-4B K.2 without any instructor he flies from Speke to Farnborough over a period of 2.30hrs flying time.

His next flight is on the 4th May where he flies an F.W.109D-9 from Grove to Flensburg and Schleswig he notes "Made a touch down but was fired on". Later that day he flies the German M.E.262B-1a/U1 110305 he notes it being a two seater but flies it solo for 40 minutes. Throughout the rest of May he trials a number of Allied and German Axis aircraft to include a Ju.388, Yak-1, PE-2, JU.87D-3 and on the 26th May flies an Me.110C from Bad Zwischenahn to Fassberg "Acting as chase plane to another 110 towing a Me.163A". Later that day he has a familiarisation flight in the Me.163A "3 flights to 20,000 . Towed by Me.110 and German crew".

On the 27th he flies a Ju.86P "Handling with particular respect to the cabin pressurisation system. Left aircraft at Fassberg for overhaul of system".

The 10th June sees him fly the Me.163B "Handling to 32,000 ! Fantastic! HUSUM". For the remainder of June he flies a number of Russian aircraft which he gives mixed reviews.

On August the 25th he carries out an Air Test on a He177A-5 for suitability for onward transmission to RAE and notes "Not in very good shape", and later that day performs the same task on a He.111H-6. On the 29th he flies an Arado Ar 232B Transport plane "Handling. Weird! Landed at Wisley".

On the 27th flying in a Marlet "Jinx Party. While flying at 9'000' over North Channel sighted a F.W.Kurier flying low over water from direction of Eire. Caught E.A. at Colonsay and made dummy attacks on him and started off on a chase beyond the outer Hebrides at 50'. Cirled 3 destroyers (L88, L90, L128) and finally lost him in cloud over Barra. Fire from two dorsal gun positions holed my tail. E.A. knocking out 175 knots. Hell! -if only I had guns!! parked down at Tiree after being hopelessly lost in space".

He has his first flight on a Seafire on the 20th August, the following day he flies one from Donibristle to Andreas "Ran into solid wall of cloud right down to the water over Solway Firth so headed out for the Isle of Man", then Andreas to Stretton "Managed to scramble through the cloud but hit Stretton mighty late and had to land in the dusk. Kittens!".

On the 1st September he is now with No.778 (STU) Squadron, and flying a Hurricane from Derby to Stretton "Ghastly journey. Wind speed over the deck and no DCLO to wave his bats. Major black!! Later the same day he carries out a Take-Off Trial "On landing on the arrester hook was torn out so had to swing the crate into the island to avoid nipping smartly over the sharp end. Little damage". Towards the end of the month he continues on A.T.O. practice on H.M.S. Victorious flying Martlet IVs.

For October he flies a number of training flights on Seafires covering Speed Trials and Consumption tests flying up to 20,000ft at one stage. He repeats this with a Kingfisher on the 20th. On the 25th he is flying in formation with a Seafire "Cyclist rode across runway during formation take off and had to throw himself flat to avoid being mown down". On the 26th he carries out Handling trials on a Swordfish "Handling Trials with searchlight, battery torpedo and 8-100lb A./S. bombs. A tricky business I see no logical reason why it should fly. It does !!". The 28th sees him fly a clipped wing

version of the Seafire IIc (span 32' 7") experimental version, he notes it as "A superb aircraft". For the remainder of 1942 he carried out varying tests and trials on Seafires, Martlets and Swordfish.

On the 3rd March "Farewell beat-up gave rise to major black. Carried away wireless aeriels and flag post on Arbroath Control Tower.". Three days later he was flying a Spitfire "A.D.D.L.s Pneumatic diaphragm collapsed landed without brakes or flaps, and burst a tyre. Shaky do!". After an assortment of Electro-Magnetic Microphone and Laryngophone Trials he is sent down to Kenley.

The 4th of April sees him fly a Spitfire VB as part of a Fighter Sweep "12 Aircraft of 411 Sqdn with 12 aircraft of 412 Sqdn from Redhill flew out to Selsey Head to rendezvous with 24 Venturas from Tangmere. We flew at nought feet out to sea, gradually climbing to 18,000' to set as top cover while the bombers did their stuff on Earpique Aerodrome. They bombed from 10,000' and I saw them prang a line of hangers, two runways and some aircraft parked at a dispersal point on the east side of the aerodrome. The flak was fairly light, but the reason for that was they were flying off F.W.190s to intercept. Saw the 190's take off, but we got clear before they would bounce us. Everyone got back safely. It was a strange feeling to see France again, with Caen lying spread out beneath me belching flak. Very impressive!". He is involved in another Fighter Sweep later in the day "Fighter Sweep 403 and 416 Squadns took off together from Kenley with myself flying in 416, a Canadian outfit. We picked up 94 Fortress I at Beachy Head and climbed with them out over the Channel, crossing Quiberville at 25,000ft. and carrying on to Rouen, where we left the Forts to carry on to Paris and bomb the Renault works at Billancourt, while we orbited up sun on the outskirts E. of Rouen at 28,000ft awaiting the return of the bombers. I saw a terrific column of smoke rise to 10,000ft over Paris, and then the Forts came back bringing shoals of 190s with them. Next thing I knew was a hell of a scrap all around me with Spits. And 190s everywhere and the Yanks firing at everything. I fired at a 190 but broke away before I could see

the result for something was firing on my tail. Lord! I was frightened! Saw a Fortress shot down in flames, and the cone tail gunner brake out of another in a spin. Also saw 2 Focke Wulfs and a Spitfire buy it. Total score 5 F.W.190s shot down by the Kenley wing, 47 F.W.190s shot down by the Fortresses. We lost P/O. Gumbel, D.F.C. and Sgt. Deschamps in Spit IXs and 4 Fortresses. Quite a party."

A further Fighter Sweep on the 6th April "Rodeo with 411 Squadron and 421 Sqdn. Crossed French coast at Le Treport and flew inland to Formerie. 421 boys beat up ground targets while we kept cover at 7,000ft. and Kenley wing of Spit. IXs kept high cover. Skirted N. of Dieppe on way home to avoid heavy flak. Saw 2 goods trains and German staff car pranged."

For the 8th "12 Aircraft of 411 Sqdn with Kenley wing of Spit IXs giving cover at 5,000ft. We crossed English coast at Shoreham and flew right down on the water till 6 miles off the French coast when we climbed to 5,000ft. crossing at Port en Bessin and skirting Bayeux where we split into 3 sections, 1 going to Airel, ours to St.Lo and another to Earentan. I beat up a signal box, 2 motor lorries and a barge. Wizard fun! Made my own way back over the coast W. of Isigny Eastuary and joined up with some of the boys who had been spraying E. and R. boats. No fighter opposition. Flak over towns."

He returns back to Scotland later in the month carrying out various trials and activity. On the 31st May flying in a Tarpon Avenger "Trapped in fog and cloud down on to the deck. Flew on up the coast on the radio altimeter till completely bogged, so parked down in a field beside a coal pit slag heap. Just made it with 12' to spare. No damage. Ye Gods!".

In June he carries out a number of Deck Landings and A.T.O. Trials aboard H.M.S. Illustrious, whilst on the 12th flying a Barracuda carrying out Radio Altimeter (A.V.D.) Trials. Engine lost power on approach to Dunimo airfield and aircraft lost height rapidly. Turned away to avoid crashing into a wood and bogged off cross-country with wheels and flaps down and only enough power to keep us airborne. Flew through telephone wires and a tree, bounced on a hillock, mowed down invasion poles and 2 brick walls before crashing to earth. A really shaky do!!!". With two photographs of the downed aircraft stuck in the log book. The remainder of the month he is flying a Martlet IV carrying out Deck Landing and A.T.O.'s on H.M.S. Attacker and H.M.S. Hunter and a Seafire as part of the Drem Airfield Lighting Trials. The final month for this log book is July 1943 and sees him carry out Aerobatics, Instruction and Anti-Fog Trials.

Pretoria Castle with a total of 32 Deck Landings for the month. He continues this in September and on the 9th performs an A.T.O. with a Firefly "Launched at 65 knots into 8 knot wind so that kite almost stalled into drink. As if this wasn't enough the arrestor hook failed to lower owing to technical fault, and no one on P.C. (Pretoria Castle) noticed it. Made one of best landings of my life straight into barrier. This must have been a Gremlins' Gala Day". Pictures of this are stuck into the log book. At the end of the month he flies from Crail to Arbroath for arrestor hook trials on a dummy deck eventually carrying out 14 successful runs.

On the 26th further trials take place and he notes "Landings at 17,000 and 18,000lbs 3.DLs On second landing at high weight the front securing bolt of the hook claw sheared, thus releasing it from the badly torn wire, and snapping it back into its housing in the fuselage. Dedigitated at full speed, and clambered off after being decelerated almost to a standstill".

For the remainder of March he flew from Machrihanish onto HMS Indefatigable, Belfast, Prestwick Crail and Farnborough.

He had another close call on the 7th June flying a Firebrand, he carried out Arrestor Gear Proofing but notes "Hydraulic piston bottomed when

wire reached stop, and so bumped the kite down with a bang, which sent the tail wheel up into the fuselage smartly". June was busy for him with a variety of tests and experimentation on aircraft to include Mustang III, Seafire XV, Buckingham and Barracuda II. He carried out 7 A.T.O.'s on the 18th in a Seafire XV noting "This game certainly knocks hell out of the kite's rear".

He returns to Schleswig on the 3rd October and flies the AR.234B again and notes "Schleswig to Nordholz after running into sea fog on south bank of Zuider Zee and darkness on the way back again. Fuel very low, pitch black and no lights on Nordholz airfield. Made it O.K., but Haupt. Mirsch down on tiny grass airfield at Eelde, O.K!". He returns to Farnborough with AR.234B 140356 on the 7th October, performing aerobatics in it the following day. Throughout the early part of October he performs further work on the Vampire and it's Arresting Proofing. He flies another

AR.234B 140141 from Farnborough to Brize Norton returning in an FW.190 where the spinner came adrift in flight. On the 17th on a Vampire carrying out Type Arresting Proofing "Big trouble at 3.35 'g' 15' off centre, bags of wreckage in port wing root, but hook still held intact". The remainder of the month seemed rather hairy for him with a burst tyre on landing at Tangmere in an Anson on the 17th. Brake failure on the 19th in an He.219A-2 from Tangmere to Brize Norton when he landed "O.K. but phew!" and later the same day all hydraulics failed on the Barracuda he was flying to Farnborough. He brings back another A.R.234B (140581) from Nordholz at the end of October.

Adding further to his exploits in early post-war Germany the log-books perhaps do not cover the depth of information and understanding of what was happening at the time. Brown elaborates greatly in his autobiography Wings on My Sleeve, in the need to make the most of capturing Axis aircraft for further UK aircraft research in particular with reference to the German jet programme, this is made clear in the following narrative.

With the war coming to a fast conclusion in early 1945 there was a need to get hold of the scientists involved with German aircraft production and Brown had his own list of people he would like to capture and interview, this being Dr Werner von Braun, Dr Heinkel, Willy Messerschmitt, Kurt Tank, Hanna Reitsch and the Horten Brothers, the last being the leading glider designers.

He was designated as CO Enemy Aircraft Flight at the RAE and flew to Germany when it was safe to do so. He landed at Fassberg, which was close to the Gottingen Aeronautical Research Centre. This was also close to Belsen and Brown visited the camp, he was asked to interview the commandant Josef Kramer and his assistant Irma Griesse.

Following this he followed the advancing troops up into Schleswig-Holstein and he headed for Husum airfield where a group of JG 400's operational Me163Bs were based, he was itching to fly one of them. As some of the Germans headed back towards Scandinavia it was his

job to go up to the big night-fighter station at Grove in Denmark and pick up the new reconnaissance bomber called the Arado 234B. He spoke to the army who expected to have units in Denmark, however this was not quite the case as they had slowed due to the regiment of SS troops defending Admiral Doenitz at Flensburg. Brown flew to Grove and climbing out of his Anson was met by a major of the Luftwaffe who handed him his sword, surrendering the airfield along with 2,000 men attached to it. He saw the Arados as well as some interesting radar-equipped night fighters and arranged to collect them a few days later. He returned to Schleswig-Holstein, in particular Schleswig airfield. On reaching the airfield he found several Me 262s.

He returned to the UK briefly and was due to return to Germany to continue his work but was called to visit Dublin as a Junkers 88 had force-landed in a field north of Dublin but was carrying the latest German radar gear, he flew this back to Farnborough with an escort of Spitfires for safety.

He returned to Germany and went to Kiel to the Walter works where he met Dr Walter inventor of the rocket motor in the Me163 and saw a demonstration of how dangerous the fuel mixture used in the jets was. With this extra knowledge he flew to the airfield at Bad Zwischenahn where the remnants of the Me163 training unit were located. He made three flights under tow from 20,000ft. However with restrictions on British pilots flying captured German aircraft the window on him flying the Me163 properly was getting smaller and smaller. He returned to Husum where a number were located and early one morning after much preparation took off reaching 450 mph, reaching 32,000ft in 2 3/4 minutes, after flying it successfully he glided it down safely, and there was relief all round.

He was keen to visit the Russian sector and flew a liberated German Siebel 204D light transport aircraft to Tarnowitz airfield, from there he flew to an airfield near Meissen and flew the Bv141.

He returned to Schleswig and decided that this airfield would be the RAE's base of choice for captured German aircraft. He made contact with Colonel Watson of the USAAF who was doing a similar task of collecting planes to be sent to the USA, these were sent to Lagerfeld near Augsburg, they were to be ferried to Cherbourg and returned to the USA aboard HMS Reaper.

As an aside Brown was able to get interrogation rights to Reichsmarschall Hermann Goering who he met on the 17th June.

He still wanted to find Hanna Reitsch and she was confirmed as being in an American hospital near Kitzbuhl, whilst en-route to meet with her

he received a tip off that a member of the Horten brothers' team was living in a remote part of Bavaria. Eventually finding this man he told Brown and those with him about the Horten XI and how revolutionary it was as a single seat jet fighter. The Americans found three of these aircraft in various stages of assembly at the Gotha Works in Friedrichroda. The Americans decided to ship them back to the USA but they did stop briefly at Farnborough with a view to fitting two British engines, alas these were not compatible with the correct Jumo 004 engines.

Brown finally catches up with Reitsch and interviews her in early July.

He flies more captured Arado 234B twin jets back to Farnborough despite an incident where a member of the captured German ground crew sabotages one of the engines. Then he is sent to Trondheim to fly a six engine Blohm and Voss 222. He takes one out with a Major from the Luftwaffe who deliberately tries to sabotage the flight by not taking the control locks out, clearly not happy with the outcome of the war.

Returning again to the UK, he carried out further tests on the Seafire in between picking up more Arados.

On his next visit to Germany he was on the search for German catapults used for launching flying boats from narrow and restricted waters such as the Norwegian fjords, alas everything in Oslo, Heligoland and Sylt had been destroyed. However he did find a further 12 Arado 234Bs which were flown down to Schleswig with Hauptmann Miersch. Eleven aircraft made it back to Farnborough eventually, Miersch and two technicians namely Walter Rautenberg and Walter Renner were sent over to Farnborough as well.

Brown was made officer in charge of the enemy aircraft pool and was responsible for receiving and checking all enemy machines which came in, selecting certain models for research, and ferrying the rest to the storage depot at Brize Norton. He flew 52 different types of German aircraft.

There was a public exhibition of German aircraft and equipment which took place at Farnborough in October/November 1945 and Brown was one of the demonstration pilots.

He returned again to Germany in December with Miersch, Renner and Rautenberg, this time he encountered a Dornier 235 at Rheims, this was Germany's fastest piston-engined fighter and the fastest piston-engine machine in the world.

## LOG BOOK 5

This begins on the 5th November with further testing with the Gadfly and further into the month Type Arresting Proofing on the Vampire. On the 30th November he flies a He.162 for forty minutes and the entry is noted as "Stalling".

On the 3rd December flying an E.6/41 he flies from Ford to H.M.S. Ocean and his log book entry is "First landing of a jet-propelled aircraft on an aircraft carrier. No.1 wire caught with ship pitching 12' at round-down". He repeats this later that morning with Deck Landing Trials "Ship rolling considerably. Flaps damaged by being struck by arrester wires, so a halt called pending modification. 3.D.Ls". With some changes made to the aeroplane on board Ocean he carries out further trials on the 6th before returning to Farnborough having had "Farewell beat-up of ship."

He flies a Me.410A-1 from Farnborough to Brize Norton on the 21st and a Do.217M to the same airfield on the 22nd. For the remainder of the month he continues to be active further work on Hoverflits Sea Hornet XX among several others. He flies the Vampire on the 1st February for a Demonstration and "Beat up and aerobatics for Royal Naval Staff College" at Lee on Solent, he receives a telegram from the Admiralty which comments on his polished display under poor weather conditions, this is attached to the relevant page in the log book. For February the Hoverfly continues to go under a variety of tests, with several flights in a Lancaster VI, Avenger III, Dakota III and Sea Otter. March sees the Sea Otter involved in numerous R.A.T.O.'s,

and later that month (21st) he takes H.R.H. Prince Birabongse Bhanudej of Siam for a ride in the Hoverfly.

On the 26th in a Hotspur he carries out the Carpet Deck Rebound Characteristics and notes "Hell of a jar. About 6g ? The first full scale experiment in the carpet deck project. Hotspur fuselage with the bottom filled with 2 tons of concrete dropped vertically at 10ft per sec."

His work remains consistent throughout with continued work on various types. On the 6th May he has his first flight in a Meteor IV (EE454). "Level at M.82 at 25,000'. 380 mph. I.A.S. at 14,500 rpm "Britannia", the World's Speed Record holder. Climbs like the clappers and drinks fuel." On the 14th and 15th May he flies a Meteor VI onto H.M.S. Ark Royal for Arrester Gear Proofing and this continues on and off for the remainder of May. He additionally flies a German Storch aircraft landing it on H.M.S. Triumph on the 28th May which he notes "First German aircraft to land on a British ship".

At the end of June 1946 the work on the R.A.T.O.'s was such that from the 27th to the 30th flying Seafire XV and Seafire XVII he demonstrates this to Empire Press Delegates, Ministry of Supply Officials, Cabinet Ministers, Staff Officers of Foreign Powers, Royal Aeronautical Society Garden Party and the Public. On the 10th July whilst flying a Vampire he carries out Engine Performance at Altitude up to 35,000' "Compressibility Dive to M.76-333 mph I.A.S. at 29,000'. Wicked porpoising set in".

On the 24th flying in a G.A.L/56 (Experimental tailless glider) with a Miss Curtiss as passenger the test is noted at Trim Curves "Towed to 20,000' by Spitfire L.F. IX Lug swung on T.O. 10/10 cloud cover at 8,000' on way down. Just scraped in on 18 runway by stalling it in over hedge. Tipped on nose on landing, but O.K."

He finally gets to pilot the Me.163B on the 10th October and notes it as Sideslips "Towed to 16,000' by Spitfire L.F IX. Forgot skid on landing as result of continuing test too low, but got it down during hold-off". On the 25th he flies an Avenger for B.H.V Accelerator Proofing "Initial launch at 2.5 'g' (57 Knots) A real Gremlin show. Engine cut due to fuel starvation, and wings unlocked due to vibration when about to launch on second attempt the tail wheel struck the towing shuttle doing slight damage, and the chart boards struck me in the chest under 'g' effect. Flare path landing.". For the remainder of the year he spends much time working on the "Ark Royal" Arrestor Gear Proofing flying Mosquito VI and Seafire XVII. He flies in the G.A. L/56 on December 4th and 1st January 1947 up to 20,000ft on the latter flight he notes "No intercom". Despite this he flies it again on the 2nd. For the remainder of January and the greater part of February he flies the Hoverfly performing a variety tests and experiments. On the 20th March he climbs to a ceiling height of 9,170' in Hoverfly KL109. He has another close have on the 29th March in an Avenger "Engine Failure on take-off. Belly landing on main runway 07-25. Not excessively damaged. Bomb doors and prop only gone."

He performs a Static R.A.T.O.G. Firing Test in a Sea Fury X on the 17th April "with 6 rockets tail wheel assembly blasted badly. Cockpit full of dense flames entering through tail wheel door. On the 6th May he reverts back to the Hoverfly for a Determination of Rotor Disc Flow. "The circus in action again. A bit of violent evasive action required to avoid colliding with the three smoke generators dangling by a rope from the Storch." On the 13th he flies a Lancastrian which has two Nene jets as outboards and Inboard Merlins feathered for cruising. Later the same day he attempts to fly the Horten IV and notes "3 attempts to take-off. 2 violent swings then skid broke on 3rd likely go!" A small photo of this is stuck to his log book with the names of various Farnborough crew annotated.

On the 28th May he flies an Avenger III and notes "4 catapult launches Two at 4.4 'g' and two at 4.6 'g'. This is believed to be the highest acceleration experienced in a piloted assisted take-off. He resumes flying in a Sea Vampire in mid June and carries out a night flight on the 19th noting the aircraft has no cockpit lighting fitted. On the 30th he flies a Meteor II and he notes "Photography of Martin-Baker Pilot Seat Ejection at 375mph in formation with another Meteor carrying the apparatus fitted in a second cockpit behind the pilot. Two ejections photographed."

## LOG BOOK 6

July and August of 1947 see him continue his work with the Hoverfly and Flexible Deck Approaches in the Sea Vampire along with several flights on the G.A.L./56.

On the 2nd September he flies the E.1/45 for a Handling and Deck Landing Assessment, and flies it again on the 3rd, 5th, 10th and 11th September he has a close call where the exercise was Arresting Proofing of Type "Arrester hook sheared from V-frame at 3 'g' and swung aircraft violently to port off runway, but all O.K." He flies it several more times that month. The R.A.E. has an open day on the 14th and he carries out two demonstrations of the Catapult Launch in a Sea Fury X, as well as the usual Beat-Up that displays involve.

On the 17th he flies a Spearfish with power assisted ailerons, he notes it as "First prototype. Shocking ailerons with power off". He flies a Zaunkonig the following day noting "First flight of this German fool-proof light aeroplane designed by Prof Winter of Fieseler Storch fame. Believed to have done a few initial test flights in Germany flown by Winter himself", he flew this again on the 26th where "Engine failed twice! Fuel starvation". Having better luck on the 30th he finds the aircraft "Unstallable". Later that day he flies the Me.163B from Wisley having been towed by a Spitfire from 18,000ft and carries out Straight Sideslips. He repeats the flight on October 3rd noting "Trailing static shaken off on take-off" and again on the 9th "Landed with trailing static and parachute draped round tail wheel".

He flies the E.1/45 several more times in October and carries out a Deck Landing on HMS Illustrious on the 15th this continues with three further landings on the 28th.

In November he flies the Me.163B on several occasions carrying out Stability and Control but also Fast Landings, increasing speed from 135mph up to 158mph on the 15th "Hello' own rough passage on hitting the deck skid eventually collapsed under the strain and created chaos in the cockpit. Floor bulged in and jammed rudder bar, camera came completely adrift off its mounting, odds and ends of fittings flying loose and terrific jarring on the old spine. Underside of aircraft a shambles of twisted metal, but otherwise all intact. Self slightly cut, but heavily bruised." The log book has several photos attached showing the damage. Despite this he flew from Wittering to Farnborough in a Viking that afternoon.

On the 10th of December flying a Storch he had the task of delivering Father Christmas to RAF Station Hill, he burst a tyre on landing and took off later with it still flat, noted "Take off run was mighty tight as a result. Almost in the rough!"

On the 29th he was flying a Vampire and was carrying out Flexible Deck Landing "First full scale landing on Stage III ends in hell's prang. Hook struck lead-in ramp and locked up, end tail booms also struck causing elevator and rudders to jam, so had to sit back and be dived into the carpet then tossed off into the grass overrun beyond with cockpit falling to bits round me." The log book has an image of the plane a second before impact.

On the 22nd January 1948 he flies a Lancaster with Power-Operated Controls. "Initial flight with spring feel on rudders and elevators and feed back on ailerons. No. A.S.I. !- Worm found in pitot head !". On the same page in the log book is a cutting from what would appear to be a flight journal entitled:

### Experimental Flying Shops.

Early this year the C.O. of Aero Flight, Lt.Cmdr.E.M.Brown, addressed the flight personnel. He believed that 1947, with the largest number of flying hours on record, was the first occasion on which the flight had completed 12 months without an accident. On behalf of the pilots, the C.O. thanked the personnel concerned and assured them their efforts were appreciated as on their labours depended the safety of the aircrews. The number of trouble free hours completed by the Helicopters has been particularly remarkable.

On the 23rd February he flies for the first time the S-51 helicopter which he continues to trial and assess along with his other work including Flexible Deck Approaches with the N.18/47. On the 10th March he flies Meteor EE227 which was the prototype Trent engine version (The first turbo-prop in the world).

On the 21st April flying Vampire TG299 he carries out Photography of Shock Waves at dusk "Dives to 540mph at 5,000' = M.775, 525mph at 7,000' =M.79, 540mph at 2,000' =M.75. First successful effort in actual flight anywhere in the world". He repeats this again on the 30th April.

For May and June his flying continues unabated and he flies Sea Meteors, King Cobra and Vampires, again in roles related to primarily Deck Landings. He spends much of July Catapult Proofing of Type for the Sea Vampire 21 as well as Flexible Deck Landings continuing through into August and September. Towards the end of September he becomes involved with the HMS Ark Royal Arrestor Gear Calibration, flying an Avenger III.

On the 5th October he flies the Swallow TG/283, flying for 40 minutes in two separate flights. On the 2nd November he flies an N.18/47 from Lee-On-Solent to H.M.S. Warrior and carries out the first carrier flexible deck landing ever to be made, he carries this out again two more times that day, and again on the 4th this time in a Sea Vampire 21. On the 10th flying the Sea Vampire 21 again he performs the first catapult of a British 'jet' and/or 'trike' at sea from carrier. He continues with Flexible Deck Landings throughout November primarily Sea Vampire 21 VT 805.

On the 6th December carrying out the same task landing on Warrior "25mph over deck, so stepped approach speed up to 123mph to give high entry speed into the wire. Arrestor gear failed due to maintenance fault and bottomed to give peak of 5.2 'g' as it pulled aircraft back 15'. No damage !! 3.05 'g' 3.9W."

He flies Swallow TG/283 twice on the 8th December carrying out stalls on the first flight "Inverted spin with trailing static wound round tail". He flies it again on the 15th and 16th, both entries state "Landed with trailing static still attached".

In 1949 he was awarded the Boyd Trophy for his "outstanding skill and enterprise". He was presented the trophy on the 10th March. He was also given a permanent commission in the Royal Navy.

The book contains a number of original photographs with his own comments relating to the aircraft pictured and his role with them.

## LOG BOOK 7

This begins on the 1st April 1949 with the first flight with the R.A.E. designed servo-tab system on a Lancaster II. On the 4th flying a P.1040 he carries out Catapulting Proofing of Type and notes "7 launches up to 4.3 'g' Underside of rear fuselage ripped open by hold back extension jockey pulley". On the 12th he flies a Sea Vampire 21 carrying out Flexible Deck Approaches in light rain to test effectiveness of rain repellent compound applied to windscreen to improve vision. He was awarded the Royal Aeronautical Society's British Silver medal for his outstanding achievements in advancing the technique of deck landing on the 28th April. Throughout the month he worked on the S-51 Helicopter carrying out Phugoids and Vibrographs. On the 10th May he flies a Sea Vampire from Lee on Solent to HMS Warrior for Flexible Deck Landing "32mph over deck 2.9 'g' 4.7W. Modified flexible after-deck fitted."

On the 14th June flying a D.H.108 he carries out Glide Landings at Blackbushe "Got approach down to 115mph but the hold off to reduce high rate of descent gave large charge of attitude so that the tail cone and wing tip skids struck the runway first on touch-down at 103mph, and jerked aircraft violently on to its nose-wheel. Minor damage, but accelerator read + 10 1/2 and -4 1/2 'g'." On the 21st carrying out Flexible Deck Landings in a N.18/47 he notes "In 7mph tailwind. 3.7 'g' peaking to 5 'g' as the arrester gear bottomed and tore whole arrester hook installation out of the aircraft. Demonstration for the Aircraft and Airfields R and D committee." On the 5th July he carries out a Martin Baker Ejection Seat Launch "Training charge used, giving 9 'g' for .2sec, and shooting the seat 31.8ft. up the Martin Baker test rig ramp". On the 12th August he flies a S.R./A.1 Saunders Roe flying boat jet fighter carrying out Handling and Compressibility Div to M.82 "Struck some driftwood 1/3 of way along landing run. Aircraft skewed and turned turtle in 60' of water in Cowes Roads." A newspaper cutting is stuck to the logbook confirming this. In August 1949 he flies Sea Fury XI with the School of Naval Air Warfare. He comes 1st in the course and achieves 98% in the Pilot Navigation Exam Result. This follows with the Fighter Combat Exam in October achieving 1st

place again with a 94% result. He then serves with 802 Squadron and spends time in the UK and Germany.

In September 1951 he goes to the Flight Test Division Naval Air Test Centre at Patuxent River, Maryland, where he is Resident British Test Pilot. He flies a variety of aircraft to include F9F-5, JRB-4, F-86A-5. He has another close shave on the 10th January 1952 "A hairy landing ride on 1300 yard runway with 30 knot, 90 degree cross wind, a lake of water in the middle, port u/c leg indicating unlocked, and both main wheel tyres bursting during run!"

Throughout the early part of 1952 he flies a variety of types and carrying out trials including Saw Tooth Climbs, Stall Fence Evaluation as well as other detailed technical work. He flies HRS-1, F3D-2, AJ-1, HTE-2 and F2H-3 throughout the rest of 1952 concluding in November 1952.

## LOG BOOK 8

This begins in August 1953 with him flying Firefly and Dragonfly 3 on HMS Illustrious. In October he transfers to Sea Hawks. He flies with 806 Sqn and 804 Sqn at R.N.A.S. Lossiemouth as Commander. He performs a Fly Past over the Royal Yacht Britannia in the Solent to welcome H.M. Queen Elizabeth II after her World Tour on the 14th May, his log book contains two telexes from The Queen and Vice Admiral thanking him and all those involved for such a good formation.

He flies in the Belfast International Air Display on the 19th June and receives many thanks for this. On the 24th June his curved front Perspex windscreen is shattered by a collision with a seagull whilst performing Squadron Formation Drill. On the 3rd July 1954 he leads a total of 19 Sea Hawks at an Air Display at Ford airfield. On the 10th he flies in the Lossiemouth Air Display, a newspaper cutting states that the highlight of the display was a massed fly-past of 45 fighter jets to include Meteors, Vampires and Sea Hawks.

On the 19th July he flies a Dragonfly 3 as part of a Rescue Attempt "Picked up body of a young girl taken from water at Whitesand Bay, St.David's. Flew her back with District Nurse to Brawdy where medical team worked on her with artificial respiration, oxygen, etc- but all in vain".

On the 11th August flying a Dragonfly 3 he flies Admiral of the Fleet Sir Algernon Willis who was to greet the British Greenland Expedition returning to Britain in Sunderlands after two years absence. He carries out an Air Sea Rescue Wet Dinghy Drill Hoists on the 6th November lifting six pilots out of the sea. It used a scoop pick-up net for the first time, he notes it as very successful. On the 15th December his passenger was Santa Claus as part of "Father Christmas Skyleigh Drive" a short 10 minute flight. For 1955 he is based at Brawdy and he flies Vampires, Dragonfly, Dominie and Dragonfly. On 6th February 1956 he is sent up in a Sea Vampire for a Flying Saucer Chase "Unidentified metallic object in sky sighted from ground. Scrambled on perplexing chase after some iridescent shape at very high altitude, which was probably a cosmic research balloon. What else?". A photograph of the offending UFO is stuck in the log book. He has two further rescue attempts in a Dragonfly 3, the first on the 27th May, and again on the 10th June. A further rescue takes place on the 6th August, with a family cut off by high tide. He takes the Chaplain of the Fleet for an Air Experience flight on the 8th October on a Sea Vampire 22.

He joins J.S.S.C. in November 1956 and flies a Chipmunk for the first time on the 21st November which he continues to do so for the next few months. He has a Type Conversion at RAF Marham on a Canberra 4 on the 7th March 1957. He transfers to 764 Squadron at R.A.F.F.C. Manby in July and has a Familiarisation flight on a Hunter 4 on the 15th July. He flies the two mentioned aircraft throughout July to November along with a Canberra 2 and Canberra 4, carrying out Air Defence Exercises along with many other tasks at one stage reaching 51,000ft in a Hunter 4.

In January 1958 he transfers to 719 Squadron and flies a Gannet 2 as well as a Dragonfly 5. In May he flies a Pembroke 54 at Marinefliegerhorst, Kiel-Holtenau.

## LOG BOOK 9

This log book starts in June 1958 where in a Sycamore 52 he flies Hauptbootsman Wenzig from Weston-Super-Mare to Lympe on the 17th June, later in the day they fly to Antwerp/Deurne, he notes "Homer failure and poor vis necessitated two field landings within about 1 mile of Deurne. Flares eventually led us home". They carry on to Dusseldorf and then to Kiel-Holtenau.

He remains in Germany throughout the rest of the year and into early 1959 flying Skeeter 51, Pembroke 54 and Sycamore 52, his log book as stamped by the Kommando der Marineflieger. He has an Air Test on a Sea Hawk on the 20th March, and continues to fly them in mid April with Pupil First Familiarisation Chases. He is 2nd Pilot in a Bell 204 on the 4th August landing on the platform of German LSM 750 in Kieler Bucht and three days later is 2nd Pilot in a Vertol 107 carrying out a water landing in the Kieler Bucht. For the remainder of the year he trains a variety of Pilots in Instrument Flying Instruction among other Lessons mainly on Fouga Magisters. He comes to the aid of Father Christmas on the 23rd December in a Skeeter 51.

His flying pattern for the early part of 1960 remains the same flying Fouga Magisters mainly, this changes slightly with Maincheck 4 and 5 Air Tests on Sea Hawk 100's at Bremen (Focke-Wulf) in April. He completes his time in Germany at the end of 1960 and returns to the U.K. He is promoted to Captain on the 31st December 1960 and appointed as Deputy Director (Air) of the Gunnery Division at the Admiralty in London. Being responsible for the development of air weaponry to meet the requirements of the Fleet Air Arm.

He has only two flights in 1961 in a Fouga Magister and a Sycamore.

He flies again in February 1962 in a Sea Devon and a Sea Heron. Followed by flights in a Whirlwind 7 and an S.61A in March and May. He has his first flight as 2nd Pilot in a Phantom II on the 21st June at Farnborough, reaching Mach 2.25 at 38,000ft. For July he flies a Brantly B-2 helicopter, Whirlwind 10 and Sea Hawk 6. For the remainder of the year he just has four flights in a Fouga Magister. His next appointment was as Deputy Director of Naval Air Warfare. His experience in the Phantom had convinced him that this was the aircraft for the Royal Navy.

In 1963 he flies a Whirlwind 10 in February and April, a B.206 in September flying out of Shoreham. On the 24th November he is 2nd Pilot in a Phantom II, going solo the following day and carries out 2 touch and goes on USS Forrestal.

He flies the same type in March 1964, on the 10th he is 2nd Pilot in a Low Level Performance Demonstration. Later the same day he goes solo carrying out High Mach No. Handling, he notes "Climb to 61,000' and runs at M 2.4 and M2.5. What a ship!" These are the only two flights for him for the year.

He serves as Naval Attaché in Bonn from the 4th November 1964 to 1967 and escorted the Queen and Prince Philip on their tour of West Germany. He helped the German Air Museum in Munich in repatriating an engine for the Me.163 Comet which the Germans were missing for their display piece. Brown knew there was one at Farnborough from the one he flew after the war, this was returned and the newly refurbished aircraft was put on display.

He flies again in late June 1965 on the Fouga Magister and Sea Hawk 101. On the 30th he has his first experience in a Starfighter, firstly as 2nd Pilot with Oblt. Zander. He goes solo the following day with a First and Second Familiarisation each of an hours duration. He repeats this in August with a dual check on the 16th and 3rd, 4th and 5th Familiarisations on the 17th and 18th August, which conclude his flying for 1965.

In 1966 he flies for the first time on the 10th March in a Sycamore and flies Pembroke 54s and Fouga Magisters sporadically up until the end of June. With two flights in the latter on the 11th October he flies the Starfighter on the 12th and 13th October firstly as 2nd Pilot with Oblt. Zander and the second day for 2.15hrs solo, this concludes his flying for 1966.

For 1967, he has three flights in March on Fouga Magisters. He flies the Hunter 8 in August spending 3.15hrs as 2nd Pilot going solo on the 25th, followed by further familiarisations and Instrument flying for the remainder of the month. For the remainder of the year he flies Whirlwind 7s, Sea Devon 2s, Hunter II, Sea Heron and Sea Vampires in various capacities based out of R.N.A.S. Lossiemouth where he was the Commanding Officer.

For 1968 his flying seems to increase, with a fair amount of tuition on the previous types mentioned for 1967. On the 10th May he flies

a Buccaneer for the first time. The remainder of the year remains fairly busy for him and this continues into 1969 which despite being busy remains uneventful compared to previous years. On the 19th February 1970 in a Whirlwind 7 while taking Photography of snow blockages he notes "Engine failure 1m. South of Yarmouth necessitated autorotation forced landing into ploughed field. Tail skid picked up wire fence on final flare out, otherwise all successful." The log book has photographs of the offending aircraft and an image of the broken engine parts that caused the accident.

His final flight for the Fleet Air Arm is on the 11th March in a Whirlwind 7 carrying out Local Flying. He retired the following day.

Further entries for the book show him fly a number of different helicopters to include a Bell 222 and a Sikorsky S-76 in a civilian capacity.

His Grand Total of flying hours comes to 5570Hrs 35mins

## LOG BOOK ENTITLED “FLYING BOATS”

He has Dual Instruction in a Catalina II on the 23rd July and goes solo later that day to carry out Water Landings.

On the 23rd August he flies a BV.138B carrying out Water Landings and the following day flies a Do.26. Replica version built by German engineering apprentices in WW2”. He later takes RAE ground crews for joy rides in the same aircraft at Schleswig.

The book has two further entries for 1948 flying a Seabee and a Sealand, and finally two more on the 5th August 1959 aboard an Albatross at Holtenau followed by a Water Handling Assessment in Kieler Bucht.

The rear of the book has entries beginning from June 1975 until June 2008 with him as 2nd Pilot or Passenger in a variety of Helicopters, Commercial Jets covering a combination of work and holiday flights.

## CIVILIAN FLYING LOG BOOK

This log book begins on the 15th August 1938 with him flying a D.H.60 out of the Maidstone School of Flying at West Malling in Kent. He has his first solo on the 11th September. He has his A licence test on the 21st and concluded his flying for 1938 on the 1st October. He recommences on the 27th June 1939 this time flying out of Doncaster in a B.A.Swallow. His flying stops on the 5th July as he was due to go out to Munich. He has five assorted entries during wartime, but recommences in February 1946. He flies a Bristol Freighter on the 10th August from Filton “By company request to R.A.E.”. Flights in 1947 include those for a lunch with the Fairey design team and talks with the Miles design team. With several entries per year for most years he continues to fly a variety of civilian types. From 1971 onwards he flies mainly helicopters including the Hughes 300, Bell Jet Ranger, as well as several fixed wing varieties made by Piper. His last entry for this log book is on the 7th April 1976 flying an Enstrom F28A.

His first job after he retired was as Chief Executive of the British Helicopter Advisory Board now the British Helicopter Association. He had great plans for a nationwide network of heliports, the first of which was at Blackfriars. He was also passionate about promoting the air ambulance and police helicopter services, as well as other aspects for potential roles for helicopters. He served in this role as Chief Executive from 1970-87, and then after as Vice President. Every year the organisation presents the Eric Brown Award for outstanding service to the Helicopter industry. He also helped found the European Helicopter Association.

He was Chairman of the Royal Aeronautical Societies Rotorcraft Section between 1973 and 1976. He was Chairman of the British Aviation Bicentenary Executive Committee in 1984. He was made a Fellow of the Royal Aeronautical Society in 1964 and served as President between 1982 and 1983. He was awarded the Breguet Trophy in 1983, given jointly by the Royal Aero Club and the Aero Club de France. Made an Honorary fellow of the Society of Experimental Test Pilots in 1984. Federation Aeronautique Internationale 1986. U.S. Carrier Aviation Test Pilot Hall of Honour 1995.

More recently he went to Toulouse (23-25th January 2006 from the log book) for Airbus to advise on the A380 and to Lockheed-Martin (26th September to 2nd October 2007) to offer his thoughts on the deck landing of the F-35 Lightning shortly to see service with the Royal Navy.

He spent much of his time helping charities including the Fly Navy Heritage Trust, the Smallfield Aviation Society and the People’s Mosquito. Brown enjoyed a third career as an aviation author and lecturer and aged 90 was still a much sought-after lecturer on cruise liners. He wrote a number of books which include: Wings on My Sleeve (1961), Aircraft Carriers (1969), Wings of the Luftwaffe (1977), Wings of the Navy (1980), Duels in the Sky (1989), Testing for Combat (1994), as well as contributing to further aviation articles, and countless radio interviews and television documentaries.

Eric Brown married Evelyn (Lynn) Macrory in 1942, she predeceased him in 1998 and he is survived by their son Glenn, and his companion Jean. He died on the 21st February 2016, aged 97. His memorial service took place at Yeovilton on the 21st July 2016 and included a fly past of as many aircraft available that he had flown.

## NOTICE TO BIDDERS

This notice is addressed by *Bonhams* to any person who may be interested in a *Lot*, including *Bidders* and potential *Bidders* (including any eventual *Buyer* of the *Lot*). For ease of reference we refer to such persons as “*Bidders*” or “*you*”. Our List of Definitions and Glossary is incorporated into this *Notice to Bidders*. It is at Appendix 3 at the back of the *Catalogue*. Where words and phrases are used in this notice which are in the List of Definitions, they are printed in italics.

IMPORTANT: Additional information applicable to the *Sale* may be set out in the *Catalogue* for the *Sale*, in an insert in the *Catalogue* and/or in a notice displayed at the *Sale* venue and you should read them as well. Announcements affecting the *Sale* may also be given out orally before and during the *Sale* without prior written notice. You should be alert to the possibility of changes and ask in advance of bidding if there have been any.

### 1. OUR ROLE

In its role as *Auctioneer of Lots*, *Bonhams* acts solely for and in the interests of the *Seller*. *Bonhams*' job is to sell the *Lot* at the highest price obtainable at the *Sale* to a *Bidder*. *Bonhams* does not act for *Buyers* or *Bidders* in this role and does not give advice to *Buyers* or *Bidders*. When it or its staff make statements about a *Lot* or, if *Bonhams* provides a *Condition Report* on a *Lot* it is doing that on behalf of the *Seller* of the *Lot*. *Bidders* and *Buyers* who are themselves not expert in the *Lots* are strongly advised to seek and obtain independent advice on the *Lots* and their value before bidding for them. The *Seller* has authorised *Bonhams* to sell the *Lot* as its agent on its behalf and, save where we expressly make it clear to the contrary, *Bonhams* acts only as agent for the *Seller*. Any statement or representation we make in respect of a *Lot* is made on the *Seller's* behalf and, unless *Bonhams* sells a *Lot* as principal, not on our behalf and any *Contract for Sale* is between the *Buyer* and the *Seller* and not with us. If *Bonhams* sells a *Lot* as principal this will either be stated in the *Catalogue* or an announcement to that effect will be made by the *Auctioneer*, or it will be stated in a notice at the *Sale* or an insert in the *Catalogue*.

*Bonhams* does not owe or undertake or agree to any duty or responsibility to you in contract or tort (whether direct, collateral, express, implied or otherwise). If you successfully bid for a *Lot* and buy it, at that stage *Bonhams* does enter into an agreement with the *Buyer*. The terms of that contract are set out in our *Buyer's Agreement*, which you will find at Appendix 2 at the back of the *Catalogue*. This will govern *Bonhams'* relationship with the *Buyer*.

### 2. LOTS

Subject to the *Contractual Description* printed in bold letters in the *Entry* about the *Lot* in the *Catalogue* (see paragraph 3 below), *Lots* are sold to the *Buyer* on an “as is” basis, with all faults and imperfections. Illustrations and photographs contained in the *Catalogue* (other than photographs forming part of the *Contractual Description*) or elsewhere of any *Lots* are for identification purposes only. They may not reveal the true condition of the *Lot*. A photograph or illustration may not reflect an accurate reproduction of the colour(s) of the *Lot*. *Lots* are available for inspection prior to the *Sale* and it is for you to satisfy yourself as to each and every aspect of a *Lot*, including its authorship, attribution, condition, provenance, history, background, authenticity, style, period, age, suitability, quality, roadworthiness (if relevant), origin, value and estimated selling price (including the *Hammer Price*). It is your responsibility to examine any *Lot* in which you are interested. It should be remembered that the actual condition of a *Lot* may not be as good as that indicated by its outward appearance. In particular, parts may have been replaced or renewed and *Lots* may not be authentic or of satisfactory quality; the inside of a *Lot* may not be visible and may not be original or may be damaged, as for example where it is covered by upholstery or material. Given the age of many *Lots* they may have been damaged and/or repaired and you should not assume that a *Lot* is in good condition. Electronic or mechanical parts may not operate or may not comply with current statutory requirements. You should not assume that electrical items designed to operate on mains electricity will be suitable for connection to the mains electricity supply and you should obtain a report from a qualified electrician on their status before doing so. Such items which are unsuitable for connection

are sold as items of interest for display purposes only. If you yourself do not have expertise regarding a *Lot*, you should consult someone who does to advise you. We can assist in arranging facilities for you to carry out or have carried out more detailed inspections and tests. Please ask our staff for details.

Any person who damages a *Lot* will be held liable for the loss caused.

### 3. DESCRIPTIONS OF LOTS AND ESTIMATES

#### **Contractual Description of a Lot**

The *Catalogue* contains an *Entry* about each *Lot*. Each *Lot* is sold by its respective *Seller* to the *Buyer* of the *Lot* as corresponding only with that part of the *Entry* which is printed in bold letters and (except for the colour, which may be inaccurately reproduced) with any photograph of the *Lot* in the *Catalogue*. The remainder of the *Entry*, which is not printed in bold letters, represents *Bonhams'* opinion (given on behalf of the *Seller*) about the *Lot* only and is not part of the *Contractual Description* in accordance with which the *Lot* is sold by the *Seller*.

#### **Estimates**

In most cases, an *Estimate* is printed beside the *Entry*. *Estimates* are only an expression of *Bonhams'* opinion made on behalf of the *Seller* of the range where *Bonhams* thinks the *Hammer Price* for the *Lot* is likely to fall; it is not an *Estimate* of value. It does not take into account any VAT or *Buyer's Premium* payable. *Lots* can in fact sell for *Hammer Prices* below and above the *Estimate*. Any *Estimate* should not be relied on as an indication of the actual selling price or value of a *Lot*. *Estimates* are in the currency of the *Sale*.

#### **Condition Reports**

In respect of most *Lots*, you may ask for a *Condition Report* on its physical condition from *Bonhams*. If you do so, this will be provided by *Bonhams* on behalf of the *Seller* free of charge. *Bonhams* is not entering into a contract with you in respect of the *Condition Report* and accordingly does not assume responsibility to you in respect of it. Nor does the *Seller* owe or agree to owe you as a *Bidder* any obligation or duty in respect of this free report about a *Lot*, which is available for your own inspection or for inspection by an expert instructed by you. However, any written *Description* of the physical condition of the *Lot* contained in a *Condition Report* will form part of the *Contractual Description* of the *Lot* under which it is sold to any *Buyer*.

#### **The Seller's responsibility to you**

The *Seller* does not make or agree to make any representation of fact or contractual promise, *Guarantee* or warranty and undertakes no obligation or duty, whether in contract or in tort (other than to the eventual *Buyer* as set out above), in respect of the accuracy or completeness of any statement or representation made by him or on his behalf, which is in any way descriptive of any *Lot* or as to the anticipated or likely selling price of any *Lot*. Other than as set out above, no statement or representation in any way descriptive of a *Lot* or any *Estimate* is incorporated into any *Contract for Sale* between a *Seller* and a *Buyer*.

#### **Bonhams' responsibility to you**

You have the opportunity of examining the *Lot* if you want to and the *Contract for Sale* for a *Lot* is with the *Seller* and not with *Bonhams*; *Bonhams* acts as the *Seller's* agent only (unless *Bonhams* sells the *Lot* as principal).

*Bonhams* undertakes no obligation to you to examine, investigate or carry out any tests, either in sufficient depth or at all, on each *Lot* to establish the accuracy or otherwise of any *Descriptions* or opinions given by *Bonhams*, or by any person on *Bonhams'* behalf, whether in the *Catalogue* or elsewhere.

You should not suppose that such examinations, investigations or tests have occurred.

*Bonhams* does not make or agree to make any representation of fact, and undertakes no obligation or duty (whether in contract or tort) in respect of the accuracy or completeness of any statement or representation made by *Bonhams* or on *Bonhams'* behalf which is in any way descriptive of any *Lot* or as to the anticipated or likely selling price of any *Lot*. No

statement or representation by *Bonhams* or on its behalf in any way descriptive of any *Lot* or any *Estimate* is incorporated into our *Buyer's Agreement*.

#### **Alterations**

*Descriptions* and *Estimates* may be amended at *Bonhams'* discretion from time to time by notice given orally or in writing before or during a *Sale*.

THE *LOT* IS AVAILABLE FOR INSPECTION AND YOU MUST FORM YOUR OWN OPINION IN RELATION TO IT. YOU ARE STRONGLY ADVISED TO EXAMINE ANY *LOT* OR HAVE IT EXAMINED ON YOUR BEHALF BEFORE THE *SALE*.

### 4. CONDUCT OF THE SALE

Our *Sales* are public auctions which persons may attend and you should take the opportunity to do so. We do reserve the right at our sole discretion to refuse admission to our premises or to any *Sale* without stating a reason. We have complete discretion as to whether the *Sale* proceeds, whether any *Lot* is included in the *Sale*, the manner in which the *Sale* is conducted and we may offer *Lots* for *Sale* in any order we choose notwithstanding the numbers given to *Lots* in the *Catalogue*. You should therefore check the date and starting time of the *Sale*, whether there have been any withdrawals or late entries. Remember that withdrawals and late entries may affect the time at which a *Lot* you are interested in is put up for *Sale*. We have complete discretion to refuse any bid, to nominate any bidding increment we consider appropriate, to divide any *Lot*, to combine two or more *Lots*, to withdraw any *Lot* from a *Sale* and, before the *Sale* has been closed, to put up any *Lot* for auction again. Auction speeds can exceed 100 *Lots* to the hour and bidding increments are generally about 10%. However these do vary from *Sale* to *Sale* and from *Auctioneer* to *Auctioneer*. Please check with the department organising the *Sale* for advice on this. Where a *Reserve* has been applied to a *Lot*, the *Auctioneer* may, in his absolute discretion, place bids (up to an amount not equaling or exceeding such *Reserve*) on behalf of the *Seller*. We are not responsible to you in respect of the presence or absence of any *Reserve* in respect of any *Lot*. If there is a *Reserve* it will normally be no higher than the lower figure for any *Estimate* in the *Catalogue*, assuming that the currency of the *Reserve* has not fluctuated adversely against the currency of the *Estimate*. The *Buyer* will be the *Bidder* who makes the highest bid acceptable to the *Auctioneer* for any *Lot* (subject to any applicable *Reserve*) to whom the *Lot* is knocked down by the *Auctioneer* at the fall of the *Auctioneer's* hammer. Any dispute as to the highest acceptable bid will be settled by the *Auctioneer* in his absolute discretion. All bids tendered will relate to the actual *Lot* number announced by the *Auctioneer*. An electronic currency converter may be used at the *Sale*. This equipment is provided as a general guide as to the equivalent amount in certain currencies of a given bid. We do not accept any responsibility for any errors which may occur in the use of the currency converter. We may use video cameras to record the *Sale* and may record telephone calls for reasons of security and to assist in solving any disputes which may arise in relation to bids made at the *Sale*. At some *Sales*, for example, jewellery *Sales*, we may use screens on which images of the *Lots* will be projected. This service is provided to assist viewing at the *Sale*. The image on the screen should be treated as an indication only of the current *Lot*. It should be noted that all bids tendered will relate to the actual *Lot* number announced by the *Auctioneer*. We do not accept any responsibility for any errors which may occur in the use of the screen.

### 5. BIDDING

We do not accept bids from any person who has not completed and delivered to us one of our *Bidding Forms*, either our *Bidder Registration Form*, *Absentee Bidding Form* or *Telephone Bidding Form*. You will be asked for proof of identity, residence and references, which, when asked for, you must supply if your bids are to be accepted by us. Please bring your passport, driving licence (or similar photographic proof of identity) and proof of address. We may request a deposit from you before allowing you to bid. We may refuse entry to a *Sale* to any person even if that person has completed a *Bidding Form*.

## Bidding in person

You should come to our *Bidder* registration desk at the *Sale* venue and fill out a *Bidder* Registration Form on (or, if possible, before) the day of the *Sale*. The bidding number system is sometimes referred to as "paddle bidding". You will be issued with a large card (a "paddle") with a printed number on it. This will be attributed to you for the purposes of the *Sale*. Should you be a successful *Bidder* you will need to ensure that your number can be clearly seen by the *Auctioneer* and that it is your number which is identified as the *Buyer's*. You should not let anyone else use your paddle as all *Lots* will be invoiced to the name and address given on your *Bidder* Registration Form. Once an invoice is issued it will not be changed. If there is any doubt as to the *Hammer Price* of, or whether you are the successful *Bidder* of, a particular *Lot*, you must draw this to the attention of the *Auctioneer* before the next *Lot* is offered for *Sale*. At the end of the *Sale*, or when you have finished bidding please return your paddle to the *Bidder* registration desk.

## Bidding by telephone

If you wish to bid at the *Sale* by telephone, please complete a Telephone *Bidding Form*, which is available from our offices or in the *Catalogue*. Please then return it to the office responsible for the *Sale* at least 24 hours in advance of the *Sale*. It is your responsibility to check with our Bids Office that your bid has been received. Telephone calls will be recorded. The telephone bidding facility is a discretionary service and may not be available in relation to all *Lots*. We will not be responsible for bidding on your behalf if you are unavailable at the time of the *Sale* or if the telephone connection is interrupted during bidding. Please contact us for further details.

## Bidding by post or fax

Absentee *Bidding Forms* can be found in the back of this *Catalogue* and should be completed and sent to the office responsible for the *Sale*. It is in your interests to return your form as soon as possible, as if two or more *Bidders* submit identical bids for a *Lot*, the first bid received takes preference. In any event, all bids should be received at least 24 hours before the start of the *Sale*. Please check your Absentee *Bidding Form* carefully before returning it to us, fully completed and signed by you. It is your responsibility to check with our Bids Office that your bid has been received. This additional service is complimentary and is confidential. Such bids are made at your own risk and we cannot accept liability for our failure to receive and/or place any such bids. All bids made on your behalf will be made at the lowest level possible subject to *Reserves* and other bids made for the *Lot*. Where appropriate your bids will be rounded down to the nearest amount consistent with the *Auctioneer's* bidding increments. New *Bidders* must also provide proof of identity and address when submitting bids. Failure to do this will result in your bid not being placed.

## Bidding via the internet

Please visit our *Website* at <http://www.bonhams.com> for details of how to bid via the internet.

## Bidding through an agent

Bids will be accepted as placed on behalf of the person named as the principal on the *Bidding Form* although we may refuse to accept bids from an agent on behalf of a principal and will require written confirmation from the principal confirming the agent's authority to bid. Nevertheless, as the *Bidding Form* explains, any person placing a bid as agent on behalf of another (whether or not he has disclosed that fact or the identity of his principal) will be jointly and severally liable with the principal to the *Seller* and to *Bonhams* under any contract resulting from the acceptance of a bid. Subject to the above, please let us know if you are acting on behalf of another person when bidding for *Lots* at the *Sale*.

Equally, please let us know if you intend to nominate another person to bid on your behalf at the *Sale* unless this is to be carried out by us pursuant to a Telephone or Absentee *Bidding Form* that you have completed. If we do not approve the agency arrangements in writing before the *Sale*, we are entitled to assume that the person bidding at the *Sale* is bidding on his own behalf. Accordingly, the person bidding at the *Sale* will be the *Buyer* and will be liable to pay the *Hammer Price* and *Buyer's Premium* and associated charges. If we approve the identity of your client in advance, we will be in a position to address the invoice to your principal rather than you. We will require proof of the agent's client's identity and residence in

advance of any bids made by the agent on his behalf. Please refer to our *Conditions of Business* and contact our Customer Services Department for further details.

## 6. CONTRACTS BETWEEN THE BUYER AND SELLER AND THE BUYER AND BONHAMS

On the *Lot* being knocked down to the *Buyer*, a *Contract for Sale* of the *Lot* will be entered into between the *Seller* and the *Buyer* on the terms of the *Contract for Sale* set out in Appendix 1 at the back of the *Catalogue*. You will be liable to pay the *Purchase Price*, which is the *Hammer Price* plus any applicable VAT. At the same time, a separate contract is also entered into between us as *Auctioneers* and the *Buyer*. This is our *Buyer's Agreement*, the terms of which are set out in Appendix 2 at the back of the *Catalogue*. Please read the terms of the *Contract for Sale* and our *Buyer's Agreement* contained in the *Catalogue* in case you are the successful *Bidder*. We may change the terms of either or both of these agreements in advance of their being entered into, by setting out different terms in the *Catalogue* and/or by placing an insert in the *Catalogue* and/or by notices at the *Sale* venue and/or by oral announcements before and during the *Sale*. You should be alert to this possibility of changes and ask if there have been any.

## 7. BUYER'S PREMIUM AND OTHER CHARGES PAYABLE BY THE BUYER

Under the *Buyer's Agreement*, a premium (the *Buyer's Premium*) is payable to us by the *Buyer* in accordance with the terms of the *Buyer's Agreement* and at rates set out below, calculated by reference to the *Hammer Price* and payable in addition to it. Storage charges and *Expenses* are also payable by the *Buyer* as set out in the *Buyer's Agreement*. All the sums payable to us by the *Buyer* are subject to VAT. For this *Sale* the following rates of *Buyer's Premium* will be payable by *Buyers* on each lot purchased:

20% on the first £70,000 of the *Hammer Price*  
15% from £70,001 of the *Hammer Price*

The *Buyer's premium* is payable for the services to be provided by *Bonhams* in the *Buyer's Agreement* which is contained in the *Catalogue* for this *Sale* and for the opportunity to bid for the *Lot* at the *Sale*.

On certain *Lots*, which will be marked "AR" in the *Catalogue* and which are sold for a *Hammer Price* of €1,000 or greater (converted into the currency of the *Sale* using the European Central Bank Reference rate prevailing on the date of the *Sale*), the *Additional Premium* will be payable to us by the *Buyer* to cover our expenses relating to the payment of royalties under the Artists Resale Right Regulations 2006. The *Additional Premium* will be a percentage of the amount of the *Hammer Price* calculated in accordance with the table below, and shall not exceed €12,500 (converted into the currency of the *Sale* using the European Central Bank Reference rate prevailing on the date of the *Sale*).

<i>Hammer Price</i>	Percentage amount

If a *Buyer*, having registered under a non-EU address, decides that the item is not to be exported from the EU, then he should advise *Bonhams* immediately.

In all other instances no VAT will be charged on the *Hammer Price*, but VAT at the prevailing rate will be added to *Buyer's Premium* which will be invoiced on a VAT inclusive basis.

## 9. PAYMENT

It is of critical importance that you ensure that you have readily available funds to pay the *Purchase Price* and the *Buyer's Premium* (plus VAT and any other charges and *Expenses* to us) in full before making a bid for the *Lot*. If you are a successful *Bidder*, payment will be due to us by 4.30 pm on the second working day after the *Sale* so that all sums are cleared by the eighth working day after the *Sale*. ## 12. EXPORT/TRADE RESTRICTIONS

It is your sole responsibility to comply with all export and import regulations relating to your purchases and also to obtain any relevant export and/or import licence(s). Export licences are issued by Arts Council England and application forms can be obtained from its Export Licensing Unit. The detailed provisions of the export licencing arrangements can be found on the ACE website <http://www.artscouncil.org.uk/what-we-do/supporting-museums/cultural-property/export-controls/export-licensing/> or by phoning ACE on +44 (0)20 7973 5188. The need for import licences varies from country to country and you should acquaint yourself with all relevant local requirements and provisions. The refusal of any import or export licence(s) or any delay in obtaining such licence(s) shall not permit the rescission of any *Sale* nor allow any delay in making full payment for the *Lot*. Generally, please contact our shipping department before the *Sale* if you require assistance in relation to export regulations.

## 13. CITES REGULATIONS

Please be aware that all *Lots* marked with the symbol Y are subject to CITES regulations when exporting these items outside the EU. These regulations may be found at <http://www.defra.gov.uk/ahvla-en/imports-exports/cites/> or may be requested from:

## 14. THE SELLERS AND/OR BONHAMS' LIABILITY

Other than any liability of the *Seller* to the *Buyer* of a *Lot* under the *Contract for Sale*, neither we nor the *Seller* are liable (whether in negligence or otherwise) for any error or misdescription or omission in any *Description* of a *Lot* or any *Estimate* in respect of it, whether contained in the *Catalogue* or otherwise, whether given orally or in writing and whether given before or during the *Sale*. Neither we nor the *Seller* will be liable for any loss of *Business*, profits, revenue or income, or for loss of reputation, or for disruption to *Business* or wasted time on the part of management or staff, or for indirect losses or consequential damages of any kind, irrespective in any case of the nature, volume or source of the loss or damage alleged to be suffered, and irrespective of whether the said loss or damage is caused by or claimed in respect of any negligence, other tort, breach of contract (if any) or statutory duty, restitutionary claim or otherwise. In any circumstances where we and/or the *Seller* are liable in relation to any *Lot* or any *Description* or *Estimate* made of any *Lot*, or the conduct of any *Sale* in relation to any *Lot*, whether in damages, for an indemnity or contribution, or for a restitutionary remedy or otherwise, our and/or the *Seller's* liability (combined, if both we and the *Seller* are liable) will be limited to payment of a sum which will not exceed by way of maximum the amount of the *Purchase Price* of the *Lot* irrespective in any case of the nature, volume or source of any loss or damage alleged to be suffered or sum claimed as due, and irrespective of whether the liability arises from any negligence, other tort, breach of contract (if any) or statutory duty or otherwise. Nothing set out above will be construed as excluding or restricting (whether directly or

indirectly) our liability or excluding or restricting any person's rights or remedies in respect of (i) fraud, or (ii) death or personal injury caused by our negligence (or by the negligence of any person under our control or for whom we are legally responsible), or (iii) acts or omissions for which we are liable under the Occupiers Liability Act 1957, or (iv) any other liability to the extent the same may not be excluded or restricted as a matter of law or (v) our undertakings under paragraphs 9 (in relation to specialist *Stamp* or *Book Sales* only) and 10 of the *Buyer's Agreement*. The same applies in respect of the *Seller*, as if references to us in this paragraph were substituted with references to the *Seller*.

## 15. BOOKS

As stated above, all *Lots* are sold on an "as is" basis, subject to all faults, imperfections and errors of *Description* save as set out below. However, you will be entitled to reject a *Book* in the circumstances set out in paragraph 10 of the *Buyers Agreement*. Please note that *Lots* comprising printed *Books*, unframed maps and bound manuscripts are not liable to VAT on the *Buyer's Premium*.

## 16. CLOCKS AND WATCHES

All *Lots* are sold "as is", and the absence of any reference to the condition of a clock or watch does not imply that the *Lot* is in good condition and without defects, repairs or restorations. Most clocks and watches have been repaired in the course of their normal lifetime and may now incorporate parts not original to them. Furthermore, *Bonhams* makes no representation or warranty that any clock or watch is in working order. As clocks and watches often contain fine and complex mechanisms, *Bidders* should be aware that a general service, change of battery or further repair work, for which the *Buyer* is solely responsible, may be necessary. *Bidders* should be aware that the importation of watches such as Rolex, Frank Muller and Corum into the United States is highly restricted. These watches may not be shipped to the USA and can only be imported personally.

## 17. FIREARMS – PROOF, CONDITION AND CERTIFICATION

### Proof of Firearms

The term "proof exemption" indicates that a firearm has been examined at a Proof House, but not proved, as either (a) it was deemed of interest and not intended for use, or (b) ammunition was not available. In either case, the firearm must be regarded as unsafe to fire unless subsequently proved. Firearms proved for Black Powder should not be used with smokeless ammunition.

The term "Certificate of Unprovability" indicates that a firearm has been examined at a Proof House and is deemed both unsuitable for proof and use. Reproof is required before any such firearm is to be used.

### Guns Sold as Parts

Barrels of guns sold as parts will only be made available for sleeving and measurements once rendered unserviceable according to the Gun Barrel Proof Act of 1968 to 1978 and the Rules of Proof.

### Condition of Firearms

Comment in this *Catalogue* is restricted, in general, to exceptional condition and to those defects that might affect the immediate safety of a firearm in normal use. An intending *Bidder* unable to make technical examinations and assessments is recommended to seek advice from a gunmaker or from a modern firearms specialist. All prospective *Bidders* are advised to consult the " of bore and wall-thickness measurements posted in the saleroom and available from the department. *Bidders* should note that guns are stripped only where there is a strong indication of a mechanical malfunction. Stripping is not, otherwise, undertaken. Guns intended for use should be stripped and cleaned beforehand. Hammer guns should have their rebound mechanisms checked before use. The safety mechanisms of all guns must be tested before use. All measurements are approximate.

## Original Gun Specifications Derived from Gunmakers

The Sporting Gun Department endeavours to confirm a gun's original specification and date of manufacture with makers who hold their original records.

## Licensing Requirements Firearms Act 1968 as amended

*Bonhams* is constantly reviewing its procedures and would remind you that, in the case of firearms or shotguns subject to certification, to conform with current legislation, *Bonhams* is required to see, as appropriate, your original registered firearms dealer's certificate / shot gun certificate / firearm certificate / museum firearms licence / Section 5 authority or import licence (or details of any exemption from which you may benefit, for instance Crown servant status) for the firearm(s) you have purchased prior to taking full payment of the amount shown on your invoice. Should you not already be in possession of such an authority or exemption, you are required to initially pay a deposit of 95% of the total invoice with the balance of 5% payable on presentation of your valid certificate or licence showing your authority to hold the firearm(s) concerned.

Please be advised that if a successful *Bidder* is then unable to produce the correct paperwork, the *Lot(s)* will be reoffered by *Bonhams* in the next appropriate *Sale*, on standard terms for *Sellers*, and you will be responsible for any loss incurred by *Bonhams* on the original *Sale* to you.

In the case of RFD certificates and Section 5 authorities, we wish to keep an up-to-date copy on file. Please supply us with a Fax or photocopy. It would be helpful if you could send us an updated copy whenever your certificate or authority is renewed or changed.

*Lots* marked 'S1' and bearing red labels are Section 1 firearms and require a valid British Firearms certificate, RFD Licence or import licence.

*Lots* marked 'S2' and bearing blue labels are Section 2 firearms and require a valid British Shotgun certificate, RFD licence or import licence.

*Lots* marked 'S5' and bearing specially marked red labels are Section 5 prohibited firearms and require a valid Section 5 Authority or import licence.

*Lots* marked with a 'S58' and bearing yellow labels are for obsolete calibres and no licence is required unless ammunition is held.

Unmarked *Lots* require no licence.

Please do not hesitate to contact the Modern Sporting Gun Department should you have any queries.

## Taxidermy and Related Items

As a *Seller* of these articles, *Bonhams* undertakes to comply fully with Cites and DEFRA regulations. *Buyers* are advised to inform themselves of all such regulations and should expect the exportation of items to take some time to arrange.

## 18. FURNITURE

### Upholstered Furniture

Whilst we take every care in cataloguing furniture which has been upholstered we offer no *Guarantee* as to the originality of the wood covered by fabric or upholstery.

## 19. JEWELLERY

### Gemstones

Historically many gemstones have been subjected to a variety of treatments to enhance their appearance. Sapphires and rubies are routinely heat treated to improve their colour and clarity, similarly emeralds are frequently treated with oils or resin for the same purpose. Other treatments such as staining, irradiation or coating may have been used on other gemstones. These treatments may be permanent, whilst others may need special care or re-treatment over the years to retain their appearance. *Bidders* should be aware that *Estimates* assume that gemstones may have been subjected to such treatments. A number of laboratories issue certificates that give more detailed *Descriptions* of gemstones. However there may not be consensus between different laboratories on the degrees, or types of treatment for any particular gemstone. In the event that *Bonhams* has been given or has obtained certificates for any *Lot* in the *Sale* these certificates will be disclosed in the *Catalogue*. Although, as a matter of policy, *Bonhams* endeavours to provide certificates from recognised laboratories for certain gemstones, it is not feasible to obtain certificates for each *Lot*. In the event that no certificate is published in the *Catalogue*, *Bidders* should assume that the gemstones may have been treated. Neither *Bonhams* nor the *Seller* accepts any liability for contradictions or differing certificates obtained by *Buyers* on any *Lots* subsequent to the *Sale*.

### Estimated Weights

If a stone(s) weight appears within the body of the *Description* in capital letters, the stone(s) has been unmounted and weighed by *Bonhams*. If the weight of the stone(s) is stated to be approximate and does not appear in capital letters, the stone(s) has been assessed by us within its/their settings, and the stated weight is a statement of our opinion only. This information is given as a guide and *Bidders* should satisfy themselves with regard to this information as to its accuracy.

### Signatures

#### 1. A diamond brooch, by Kutchinsky

When the maker's name appears in the title, in *Bonhams'* opinion the piece is by that maker.

#### 2. A diamond brooch, signed Kutchinsky

Has a signature that, in *Bonhams'* opinion, is authentic but may contain gemstones that are not original, or the piece may have been altered.

#### 3. A diamond brooch, mounted by Kutchinsky

Has been created by the jeweller, in *Bonhams'* opinion, but using stones or designs supplied by the client.

## 20. PHOTOGRAPHS

### Explanation of Catalogue Terms

- "Bill Brandt": in our opinion a work by the artist.
- "Attributed to Bill Brandt": in our opinion probably a work by the artist, but less certainty to authorship is expressed than in the preceding category.
- "Signed and/or titled and/or dated and/or inscribed": in our opinion the signature and/or title and/or date and/or inscription are in the artist's hand.
- "Signed and/or titled and/or dated and/or inscribed in another hand": in our opinion the signature and/or title and/or date and/or inscription have been added by another hand.
- The date given is that of the image (negative). Where no further date is given, this indicates that the photographic print is vintage (the term "vintage" may also be included in the *Lot Description*). A vintage photograph is one which was made within approximately 5-10 years of the negative. Where a second, later date appears, this refers to the date of printing. Where the exact printing date is not known, but understood to be later, "printed later" will appear in the *Lot Description*.
- Unless otherwise specified, dimensions given are those of the piece of paper on which the image is printed, including any margins. Some photographs may appear in the *Catalogue* without margins illustrated.
- All photographs are sold unframed unless stated in the *Lot Description*.

## 21. PICTURES

### Explanation of Catalogue Terms

The following terms used in the *Catalogue* have the following meanings but are subject to the general provisions relating to *Descriptions* contained in the *Contract for Sale*:

- "Jacopo Bassano": in our opinion a work by the artist. When the artist's forename(s) is not known, a series of asterisks, followed by the surname of the artist, whether preceded by an initial or not, indicates that in our opinion the work is by the artist named;
- "Attributed to Jacopo Bassano": in our opinion probably a work by the artist but less certainty as to authorship is expressed than in the preceding category;
- "Studio/Workshop of Jacopo Bassano": in our opinion a work by an unknown hand in a studio of the artist which may or may not have been executed under the artist's direction;
- "Circle of Jacopo Bassano": in our opinion a work by a hand closely associated with a named artist but not necessarily his pupil;
- "Follower of Jacopo Bassano": in our opinion a work by a painter working in the artist's style, contemporary or nearly contemporary, but not necessarily his pupil;
- "Manner of Jacopo Bassano": in our opinion a work in the style of the artist and of a later date;
- "After Jacopo Bassano": in our opinion, a copy of a known work of the artist;
- "Signed and/or dated and/or inscribed": in our opinion the signature and/or date and/or inscription are from the hand of the artist;
- "Bears a signature and/or date and/or inscription": in our opinion the signature and/or date and/or inscription have been added by another hand.

## 22. PORCELAIN AND GLASS

### Damage and Restoration

For your guidance, in our *Catalogues* we detail, as far as practicable, recorded all significant defects, cracks and restoration. Such practicable *Descriptions* of damage cannot be definitive, and in providing *Condition Reports*, we cannot *Guarantee* that there are no other defects present which have not been mentioned. *Bidders* should satisfy themselves by inspection, as to the condition of each *Lot*. Please see the *Contract for Sale* printed in this *Catalogue*. Because of the difficulty in determining whether an item of glass has been repolished, in our *Catalogues* reference is only made to visible chips and cracks. No mention is made of repolishing, severe or otherwise.

## 23. VEHICLES

### The Veteran Car Club of Great Britain

### Dating Plates and Certificates

When mention is made of a Veteran Car Club Dating Plate or Dating Certificate in this *Catalogue*, it should be borne in mind that the Veteran Car Club of Great Britain using the services of Veteran Car Company Ltd, does from time to time, review cars already dated and, in some instances, where fresh evidence becomes available, the review can result in an alteration of date. Whilst the Club and Veteran Car Company Ltd make every effort to ensure accuracy, the date shown on the Dating Plate or Dating Certificate cannot be guaranteed as correct and intending purchasers should make their own enquiries as to the date of the car.

## 24. WINE

*Lots* which are lying under Bond and those liable to VAT may not be available for immediate collection.

### Examining the wines

It is occasionally possible to provide a pre-*Sale* tasting for larger parcels (as defined below). This is generally limited to more recent and everyday drinking wines. Please contact the department for details.

It is not our policy to inspect every unopened case. In the case of wines older than 20 years the boxes will usually have been opened and levels and appearance noted in the *Catalogue* where necessary. You should make proper allowance for variations in ullage levels and conditions of corks, capsules and labels.

### Corks and Ullages

Ullage refers to the space between the base of the cork and the wine. Ullage levels for Bordeaux shaped bottles are only normally noted when below the neck and for Burgundy, Alsace, German and Cognac shaped bottles when greater than 4 centimetres (cm). Acceptable ullage levels increase with age; generally acceptable levels are as follows:

Under 15 years old – into neck or less than 4cm  
15 to 30 years old – top shoulder (ts) or up to 5cm  
Over 30 years old – high shoulder (hs) or up to 6cm

It should be noted that ullages may change between publication of the *Catalogue* and the *Sale* and that corks may fail as a result of transporting the wine. We will only accept responsibility for *Descriptions* of condition at the time of publication of the *Catalogue* and cannot accept responsibility for any loss resulting from failure of corks either before or after this point.

### Options to buy parcels

A parcel is a number of *Lots* of identical size of the same wine, bottle size and *Description*. The *Buyer* of any of these *Lots* has the option to accept some or all of the remaining *Lots* in the parcel at the same price, although such options will be at the *Auctioneer's* sole discretion. Absentee *Bidders* are, therefore, advised to bid on the first *Lot* in a parcel.

### Wines in Bond

Wines lying in Bond are marked Δ. All *Lots* sold under Bond, and which the *Buyer* wishes to remain under Bond, will be invoiced without VAT or Duty on the *Hammer Price*. If the *Buyer* wishes to take the *Lot* as Duty paid, UK Excise Duty and VAT will be added to the *Hammer Price* on the invoice.

*Buyers* must notify *Bonhams* at the time of the *sale* whether they wish to take their wines under Bond or Duty paid. If a *Lot* is taken under Bond, the *Buyer* will be responsible for all VAT, Duty, clearance and other charges that may be payable thereon.

*Buyers* outside the UK must be aware that any forwarding agent appointed to export their purchases must have a movement certificate for *Lots* to be released under Bond.

A copy of our Privacy Policy can be found on our Website [www.bonhams.com](http://www.bonhams.com) or requested by post from Customer Services Department, 101 New Bond Street, London, W1S 1SR or by email from [info@bonhams.com](mailto:info@bonhams.com)

## APPENDIX 1

### CONTRACT FOR SALE

**IMPORTANT:** These terms may be changed in advance of the *Sale* of the *Lot* to you, by the setting out of different terms in the *Catalogue* for the *Sale* and/or by placing an insert in the *Catalogue* and/or by notices at the *Sale* venue and/or by oral announcements before and during the *Sale* at the *Sale* venue. You should be alert to this possibility of changes and ask in advance of bidding if there have been any.

Under this contract the *Seller's* liability in respect of the quality of the *Lot*, its fitness for any purpose and its conformity with any *Description* is limited. You are strongly advised to examine the *Lot* for yourself and/or obtain an independent examination of it before you buy it.

### 1 THE CONTRACT

- 1.1 These terms govern the *Contract for Sale* of the *Lot* by the *Seller* to the *Buyer*.
- 1.2 The Definitions and Glossary contained in Appendix 3 in the *Catalogue* are incorporated into this *Contract for Sale* and a separate copy can also be provided by *Bonhams* on request. Where words and phrases are used which are in the List of Definitions, they are printed in italics.
- 1.3 The *Seller* sells the *Lot* as the principal to the *Contract for Sale*, such contract being made between the *Seller* and you through *Bonhams* which acts in the sole capacity as the *Seller's* agent and not as an additional principal. However, if the *Catalogue* states that *Bonhams* sells the *Lot* as principal, or such a statement is made by an announcement by the *Auctioneer*, or by a notice at the *Sale*, or an insert in the *Catalogue*, then *Bonhams* is the *Seller* for the purposes of this agreement.

- 1.4 The contract is made on the fall of the *Auctioneer's* hammer in respect of the *Lot* when it is knocked down to you.

### 2 SELLER'S UNDERTAKINGS

- 2.1 The *Seller* undertakes to you that:
- 2.1.1 the *Seller* is the owner of the *Lot* or is duly authorised to sell the *Lot* by the owner;
- 2.1.2 save as disclosed in the *Entry* for the *Lot* in the *Catalogue*, the *Seller* sells the *Lot* with full title guarantee or, where the *Seller* is an executor, trustee, liquidator, receiver or administrator, with whatever right, title or interest he may have in the *Lot*;
- 2.1.3 except where the *Sale* is by an executor, trustee, liquidator, receiver or administrator the *Seller* is both legally entitled to sell the *Lot*, and legally capable of conferring on you quiet possession of the *Lot* and that the *Sale* conforms in every respect with the terms implied by the Sale of Goods Act 1979, Sections 12(1) and 12(2) (see the Definitions and Glossary);
- 2.1.4 the *Seller* has complied with all requirements, legal or otherwise, relating to any export or import of the *Lot*, and all duties and taxes in respect of the export or import of the *Lot* have (unless stated to the contrary in the *Catalogue* or announced by the *Auctioneer*) been paid and, so far as the *Seller* is aware, all third parties have complied with such requirements in the past;
- 2.1.5 subject to any alterations expressly identified as such made by announcement or notice at the *Sale* venue or by the *Notice to Bidders* or by an insert in the *Catalogue*, the *Lot* corresponds with the *Contractual Description* of the *Lot*, being that part of the *Entry* about the *Lot* in the *Catalogue* which is in bold letters and (except for colour) with any photograph of the *Lot* in the *Catalogue* and the contents of any *Condition Report* which has been provided to the *Buyer*.

### 3 DESCRIPTIONS OF THE LOT

- 3.1 Paragraph 2.1.5 sets out what is the *Contractual Description* of the *Lot*. In particular, the *Lot* is not sold as corresponding with that part of the *Entry* in the *Catalogue* which is not printed in bold letters, which merely sets out (on the *Seller's* behalf) *Bonhams'* opinion about the *Lot* and which is not part of the *Contractual Description* upon which the *Lot* is sold. Any statement or representation other than that part of the *Entry* referred to in paragraph 2.1.5 (together with any express alteration to it as referred to in paragraph 2.1.5), including any *Description* or *Estimate*, whether made orally or in writing, including in the *Catalogue* or on *Bonhams' Website*, or by conduct, or otherwise, and whether by or on behalf of the *Seller* or *Bonhams* and whether made prior to or during the *Sale*, is not part of the *Contractual Description* upon which the *Lot* is sold.
- 3.2 Except as provided in paragraph 2.1.5, the *Seller* does not make or give and does not agree to make or give any contractual promise, undertaking, obligation, guarantee, warranty, or representation of fact, or undertake any duty of care, in relation to any *Description* of the *Lot* or any *Estimate* in relation to it, nor of the accuracy or completeness of any *Description* or *Estimate* which may have been made by or on behalf of the *Seller* including by *Bonhams*. No such *Description* or *Estimate* is incorporated into this *Contract for Sale*.

### 4 FITNESS FOR PURPOSE AND SATISFACTORY QUALITY

- 4.1 The *Seller* does not make and does not agree to make any contractual promise, undertaking, obligation, guarantee, warranty, or representation of fact in relation to the satisfactory quality of the *Lot* or its fitness for any purpose.
- 4.2 The *Seller* will not be liable for any breach of any undertaking, whether implied by the Sale of Goods Act 1979 or otherwise, as to the satisfactory quality of the *Lot* or its fitness for any purpose.

### 5 RISK, PROPERTY AND TITLE

- 5.1 Risk in the *Lot* passes to you when it is knocked down to you on the fall of the *Auctioneer's* hammer in respect of the *Lot*. The *Seller* will not be responsible thereafter for the *Lot* prior to you collecting it from *Bonhams* or the *Storage Contractor*, with whom you have separate contract(s) as *Buyer*. You will indemnify the *Seller* and keep the *Seller* fully indemnified from and against all claims, proceedings, costs, expenses and losses arising in respect of any injury, loss and damage caused to the *Lot* after the fall of the *Auctioneer's* hammer until you obtain full title to it.
- 5.2 Title to the *Lot* remains in and is retained by the *Seller* until the *Purchase Price* and all other sums payable by you to *Bonhams* in relation to the *Lot* have been paid in full to, and received in cleared funds by, *Bonhams*.

### 6 PAYMENT

- 6.1 Your obligation to pay the *Purchase Price* arises when the *Lot* is knocked down to you on the fall of the *Auctioneer's* hammer in respect of the *Lot*.
- 6.2 Time will be of the essence in relation to payment of the *Purchase Price* and all other sums payable by you to *Bonhams*. Unless agreed in writing with you by *Bonhams* on the *Seller's* behalf (in which case you must comply with the terms of that agreement), all such sums must be paid to *Bonhams* by you in the currency in which the *Sale* was conducted by not later than 4.30pm on the second working day following the *Sale* and you must ensure that the funds are cleared by the seventh working day after the *Sale*. Payment must be made to *Bonhams* by one of the methods stated in the *Notice to Bidders* unless otherwise agreed with you in writing by *Bonhams*. If you do not pay any sums due in accordance with this paragraph, the *Seller* will have the rights set out in paragraph 8 below.

### 7 COLLECTION OF THE LOT

- 7.1 Unless otherwise agreed in writing with you by *Bonhams*, the *Lot* will be released to you or to your order only when *Bonhams* has received cleared funds to the amount of the full *Purchase Price* and all other sums owed by you to the *Seller* and to *Bonhams*.
- 7.2 The *Seller* is entitled to withhold possession from you of any other *Lot* he has sold to you at the same or at any other *Sale* and whether currently in *Bonhams'* possession or not until payment in full and in cleared funds of the *Purchase Price* and all other sums due to the *Seller* and/or *Bonhams* in respect of the *Lot*.
- 7.3 You will collect and remove the *Lot* at your own expense from *Bonhams'* custody and/ or control or from the *Storage Contractor's* custody in accordance with *Bonhams'* instructions or requirements.
- 7.4 You will be wholly responsible for packing, handling and transport of the *Lot* on collection and for complying with all import or export regulations in connection with the *Lot*.

- 7.5 You will be wholly responsible for any removal, storage or other charges or *Expenses* incurred by the *Seller* if you do not remove the *Lot* in accordance with this paragraph 7 and will indemnify the *Seller* against all charges, costs, including any legal costs and fees, *Expenses* and losses suffered by the *Seller* by reason of your failure to remove the *Lot* including any charges due under any *Storage Contract*. All such sums due to the *Seller* will be payable on demand.
- 8 FAILURE TO PAY FOR THE LOT**
- 8.1 If the *Purchase Price* for a *Lot* is not paid to *Bonhams* in full in accordance with the *Contract for Sale* the *Seller* will be entitled, with the prior written agreement of *Bonhams* but without further notice to you, to exercise one or more of the following rights (whether through *Bonhams* or otherwise):
- 8.1.1 to terminate immediately the *Contract for Sale* of the *Lot* for your breach of contract;
- 8.1.2 to resell the *Lot* by auction, private treaty or any other means on giving seven days' written notice to you of the intention to resell;
- 8.1.3 to retain possession of the *Lot*;
- 8.1.4 to remove and store the *Lot* at your expense;
- 8.1.5 to take legal proceedings against you for any sum due under the *Contract for Sale* and/or damages for breach of contract;
- 8.1.6 to be paid interest on any monies due (after as well as before judgement or order) at the annual rate of 5% per annum above the base rate of National Westminster Bank Plc from time to time to be calculated on a daily basis from the date upon which such monies become payable until the date of actual payment;
- 8.1.7 to repossess the *Lot* (or any part thereof) which has not become your property, and for this purpose (unless the *Buyer* buys the *Lot* as a *Consumer* from the *Seller* selling in the course of a *Business*) you hereby grant an irrevocable licence to the *Seller* by himself and to his servants or agents to enter upon all or any of your premises (with or without vehicles) during normal *Business* hours to take possession of the *Lot* or part thereof;
- 8.1.8 to retain possession of any other property sold to you by the *Seller* at the *Sale* or any other auction or by private treaty until all sums due under the *Contract for Sale* shall have been paid in full in cleared funds;

- 10.2 The *Seller's* failure or delay in enforcing or exercising any power or right under the *Contract for Sale* will not operate or be deemed to operate as a waiver of his rights under it except to the extent of any express waiver given to you in writing. Any such waiver will not affect the *Seller's* ability subsequently to enforce any right arising under the *Contract for Sale*.
- 10.3 If either party to the *Contract for Sale* is prevented from performing that party's respective obligations under the *Contract for Sale* by circumstances beyond its reasonable control or if performance of its obligations would be reason of such circumstances give rise to a significantly increased financial cost to it, that party will not, for so long as such circumstances prevail, be required to perform such obligations. 10.12 Where the *Contract for Sale* confers an immunity from, and/or an exclusion or restriction of, the responsibility and/or liability of the *Seller*, it will also operate in favour and for the benefit of *Bonhams*, *Bonhams'* holding company and the subsidiaries of such holding company and the successors and assigns of *Bonhams* and of such companies and of any officer, employee and agent of *Bonhams* and such companies, each of whom will be entitled to rely on the relevant immunity and/or exclusion and/or restriction within and for the purposes of Contracts (Rights of Third Parties) Act 1999, which enables the benefit of a contract to be extended to a person who is not a party to the contract, and generally at law.

## APPENDIX 2

### BUYER'S AGREEMENT

**IMPORTANT:** These terms may be changed in advance of the *Sale* of the *Lot* to you, by the setting out of different terms in the *Catalogue* for the *Sale* and/or by placing an insert in the *Catalogue* and/or by notices at the *Sale* venue and/or by oral announcements before and during the *Sale* at the *Sale* venue. You should be alert to this possibility of changes and ask in advance of bidding if there have been any.

### 1 THE CONTRACT

- 1.1 These terms govern the contract between *Bonhams* personally and the *Buyer*, being the person to whom a *Lot* has been knocked down by the *Auctioneer*.
- 1.2 The Definitions and Glossary contained in Appendix 3 to the *Catalogue* for the *Sale* are incorporated into this agreement and a separate copy can also be provided by us on request. Where words and phrases which are defined in the List of Definitions are used in this agreement, they are printed in italics. Reference is made in this agreement to information printed in the *Notice to Bidders*, printed in the *Catalogue* for the *Sale*, and where such information is referred to it is incorporated into this agreement.
- 1.3 Except as specified in paragraph 4 of the *Notice to Bidders* the *Contract for Sale* of the *Lot* between you and the *Seller* is made on the fall of the *Auctioneer's* hammer in respect of the *Lot*, when it is knocked down to you. At that moment a separate contract is also made between you and *Bonhams* on the terms in this *Buyer's Agreement*.
- 1.4 We act as agents for the *Seller* and are not answerable or personally responsible to you for any breach of contract or other default by the *Seller*, unless *Bonhams* sells the *Lot* as principal.
- 1.5 Our personal obligations to you are governed by this agreement and we agree, subject to the terms below, to the following obligations:
- 1.5.1 we will, until the date and time specified in the *Notice to Bidders* or otherwise notified to you, store the *Lot* in accordance with paragraph 5;

1.5.2 subject to any power of the *Seller* or us to refuse to release the *Lot* to you, we will release the *Lot* to you in accordance with paragraph 4 once you have paid to us, in cleared funds, everything due to us and the *Seller*;

1.5.3 we will provide guarantees in the terms set out in paragraphs 9 and 10.

1.6 We do not make or give and do not agree to make or give any contractual promise, undertaking, obligation, *Guarantee*, warranty, representation of fact in relation to any *Description* of the *Lot* or any *Estimate* in relation to it, nor of the accuracy or completeness of any *Description* or *Estimate* which may have been made by us or on our behalf or by or on behalf of the *Seller* (whether made orally or in writing, including in the *Catalogue* or on *Bonhams'* *Website*, or by conduct, or otherwise), and whether made before or after this agreement or prior to or during the *Sale*. No such *Description* or *Estimate* is incorporated into this agreement between you and us. Any such *Description* or *Estimate*, if made by us or on our behalf, was (unless *Bonhams* itself sells the *Lot* as principal) made as agent on behalf of the *Seller*.

### 2 PERFORMANCE OF THE CONTRACT FOR SALE

You undertake to us personally that you will observe and comply with all your obligations and undertakings to the *Seller* under the *Contract for Sale* in respect of the *Lot*.

### 3 PAYMENT

3.1 Unless agreed in writing between you and us or as otherwise set out in the *Notice to Bidders*, you must pay to us by not later than 4.30pm on the second working day following the *Sale*:

3.1.1 the *Purchase Price* for the *Lot*;

3.1.2 a *Buyer's Premium* in accordance with the rates set out in the *Notice to Bidders* on each lot, and

3.1.3 if the *Lot* is marked [AR], an *Additional Premium* which is calculated and payable in accordance with the *Notice to Bidders* together with VAT on that sum if applicable so that all sums due to us are cleared funds by the seventh working day after the *Sale*.

3.2 You must also pay us on demand any *Expenses* payable pursuant to this agreement.

3.3 All payments to us must be made in the currency in which the *Sale* was conducted, using, unless otherwise agreed by us in writing, one of the methods of payment set out in the *Notice to Bidders*. Our invoices will only be addressed to the registered *Bidder* unless the *Bidder* is acting as an agent for a named principal and we have approved that arrangement, in which case we will address the invoice to the principal.

3.4 Unless otherwise stated in this agreement all sums payable to us will be subject to VAT at the appropriate rate and VAT will be payable by you on all such sums.

3.5 We may deduct and retain for our own benefit from the monies paid by you to us the *Buyer's Premium*, the *Commission* payable by the *Seller* in respect of the *Lot*, any *Expenses* and VAT and any interest earned and/or incurred until payment to the *Seller*.

3.6 Time will be of the essence in relation to any payment payable to us. If you do not pay the *Purchase Price*, or any other sum due to us in accordance with this paragraph 3, we will have the rights set out in paragraph 7 below.

3.7 Where a number of *Lots* have been knocked down to you, any monies we receive from you will be applied firstly pro-rata to pay the *Purchase Price* of each *Lot* and secondly pro-rata to pay all amounts due to *Bonhams*.

### 4 COLLECTION OF THE LOT

4.1 Subject to any power of the *Seller* or us to refuse to release the *Lot* to you, once you have paid to us, in cleared funds, everything due to the *Seller* and to us, we will release the *Lot* to you or as you may direct us in writing. The *Lot* will only be released on production of a buyer collection document, obtained from our cashier's office.

4.2 You must collect and remove the *Lot* at your own expense by the date and time specified in the *Notice to Bidders*, or if no date is specified, by 4.30pm on the seventh day after the *Sale*.

4.3 For the period referred to in paragraph 4.2, the *Lot* can be collected from the address referred to in the *Notice to Bidders* for collection on the days and times specified in the *Notice to Bidders*. Thereafter, the *Lot* may be removed elsewhere for storage and you must enquire from us as to when and where you can collect it, although this information will usually be set out in the *Notice to Bidders*.

4.4 If you have not collected the *Lot* by the date specified in the *Notice to Bidders*, you authorise us, acting as your agent and on your behalf, to enter into a contract (the "*Storage Contract*") with the *Storage Contractor* for the storage of the *Lot* on the then current standard terms and conditions agreed between *Bonhams* and the *Storage Contractor* (copies of which are available on request). If the *Lot* is stored at our premises storage fees at our current daily rates (currently a minimum of £3 plus VAT per *Lot* per day) will be payable from the expiry of the period referred to in paragraph 4.2. These storage fees form part of our *Expenses*.

4.5 Until you have paid the *Purchase Price* and any *Expenses* in full the *Lot* will either be held by us as agent on behalf of the *Seller* or held by the *Storage Contractor* as agent on behalf of the *Seller* and ourselves on the terms contained in the *Storage Contract*.

4.6 You undertake to comply with the terms of any *Storage Contract* and in particular to pay the charges (and all costs of moving the *Lot* into storage) due under any *Storage Contract*. You acknowledge and agree that you will not be able to collect the *Lot* from the *Storage Contractor's* premises until you have paid the *Purchase Price*, any *Expenses* and all charges due under the *Storage Contract*.

4.7 You will be wholly responsible for packing, handling and transport of the *Lot* on collection and for complying with all import or export regulations in connection with the *Lot*.

4.8 You will be wholly responsible for any removal, storage, or other charges for any *Lot* not removed in accordance with paragraph 4.2, payable at our current rates, and any *Expenses* we incur (including any charges due under the *Storage Contract*), all of which must be paid by you on demand and in any event before any collection of the *Lot* by you or on your behalf.

<b>5</b>	<b>STORING THE LOT</b>		<p>We agree to store the <i>Lot</i> until the earlier of your removal of the <i>Lot</i> or until the time and date set out in the <i>Notice to Bidders</i>, on the Sale Information Page or at the back of the catalogue (or if no date is specified, by 4.30pm on the seventh day after the <i>Sale</i>) and, subject to paragraphs 6 and 10, to be responsible as <i>bailee</i> to you for damage to or the loss or destruction of the <i>Lot</i> (notwithstanding that it is not your property before payment of the <i>Purchase Price</i>).
